

QUESTION 12
12.1.10.2021

Explain briefly:

How are family structures defined and how does technology as a product affect?

1. The family:

- Family structure: composition, functional internal, and identification, as well as the responsibilities
 - Single-parent: fatherly-motherly split: separated and single-parently structure;
 - Extended: a compound of father, mother, brother, sister;
 - Nuclear: a family including relatives narrower than parents and children;
 - Blended: a family formed when a single parent marries. May include an ex-spouse or children from previous marriages, as well as new children with spouse.
 - Single: reference to household consisting of one person.
- Family stage: the beginning, expanding, and contracting family sub-processes
 - The beginning: family formation/early parenthood;
 - Expanding: early parenthood;
 - Contracting family: empty nest;
 - Reformation: divorce/separation.
- Family function: the activities and development within households, including maintenance of the stage, functional mapping, participation, interaction, setting physical, strategic, developmental goals for family members, including parenting, supplying basic needs, managing relationships, creating and maintaining stable relations, and providing interaction.

The following terms will suggest without explanation to the development and individual family members:

- Relative identity: reference to identity, understanding to how certain concepts within the family structure is the impact of a father's child needs that can influence after the formation of their parents and other generation contact with them.
- Continuous education: continuous education with parents interacting in a continuous education with parents include the continuous need for education to provide to themselves and various capabilities, the support of their goals and needs, and the ability to find the satisfaction for

Study Guide For Facs Praxis

Franklin Henry Martin
