Quantitative Psychology Research L. Andries van der Ark, Daniel M. Bolt, Wen-Chung Wang, Jeffrey A. Douglas, Sy-Miin Chow, 2015-08-08 These research articles from the 79th Annual Meeting of the Psychometric Society IMPS cover timely quantitative psychology topics including new methods in item response theory computerized adaptive testing cognitive diagnostic modeling and psychological scaling Topics within general quantitative methodology include structural equation modeling factor analysis causal modeling mediation missing data methods and longitudinal data analysis These methods will appeal in particular to researchers in the social sciences The 79th annual meeting took place in Madison WI between July 21nd and 25th 2014 Previous volumes to showcase work from the Psychometric Society s Meeting are New Developments in Quantitative Psychology Presentations from the 77th Annual Psychometric Society Meeting Springer 2013 and Quantitative Psychology Research The 78th Annual Meeting of the Psychometric Society Springer 2015 The Legacy of St. George Tucker Chad Vanderford, 2024-01-12 In The Legacy of St George Tucker Chad Vanderford provides a cogent longitudinal explication of how Virginia intellectuals constructed and defined proslavery ideology and state rights He reminds twenty first century readers that in order to judge late eighteenth and early nineteenth century thinkers fairly they must position basic political ideas within the context of their day not ours Vanderford s book will prove valuable not only for students and researchers of political theory but also of southern intellectual life and the political worlds of the Colonial Early National and Old South John David Smith Charles H Stone Distinguished Professor of American History University of North Carolina at Charlotte Historians born during and after the Civil Rights movement have struggled to take the proslavery and pro secession arguments of the eighteenth and nineteenth century South seriously They generally tend to lump the two theories together as components of one ideology and then attempt to write it out of the political norms of American life In this groundbreaking study Vanderford isolates the different ideological strands in southern political thought of this era and works to understand these ideas in the context of their time St George Tucker 1752 1827 Founding Father professor and political theorist saw clearly that slavery runs against the grain of the values articulated in the Declaration of Independence Under certain narrowly construed circumstances however he thought it necessary to tolerate slavery He viewed secession as an extreme step but one that the Declaration of Independence left open as a possibility for all free states St George Tucker s arguments hinged on a modern view of natural right that builds on the premise that political power can only be legitimate if it rests on the consent of the governed He believed that equally free and independent individuals constructed a voluntary union of equally free and independent states His son Henry Tucker 1780 1848 and grandson John Randolph Tucker 1823 1897 sought to defend this ideology of modern natural right against fellow professors North and South who tended to replace it with the ancient ideology of natural right the view that wisdom gives one the title to command Many southern intellectuals came to believe that individuals are not equally free and independent by nature many northerners came to argue that the

states had never been equally free and independent These disagreements contributed to the outbreak of the Civil War At once a work of intellectual history that shows the key role played by professors in helping to formulate southern ideology as well as a recovery of rarely explored arguments this work wrestles with one of the greatest challenges of intellectual history the effort to understand the most controversial ideas of the past on their own terms while searching for the genealogy that connects the past to the present CHAD VANDERFORD is an associate professor of history at the University of Texas of the Permian Basin His articles and reviews have appears in publications including Civil War History the Journal of Southern History and the Virginia Magazine of History and Biography **An Urban Transportation Bibliography** United States. Urban Mass Transportation Administration,1971 **Monthly Catalogue, United States Public Documents** ,1994 A *Madman's Will* Gregory May,2023-04-11 The untold saga of John Randolph s 383 slaves freed in his much contested will of 1821 finally comes to light Few legal cases in American history are as riveting as the controversy surrounding the will of Virginia Senator John Randolph 1773 1833 which almost inexplicably freed all 383 of his slaves in one of the largest and most publicized manumissions in American history So famous is the case that Ta Nehisi Coates has used it to condemn Randolph s cousin Thomas Jefferson for failing to free his own slaves With this groundbreaking investigation historian Gregory May now reveals a more surprising story showing how madness and scandal shaped John Randolph s wildly shifting attitudes toward his slaves and how endemic prejudice in the North ultimately deprived the freedmen of the land Randolph had promised them Sweeping from the legal spectacle of the contested will through the freedmen s dramatic flight and horrific reception in Ohio A Madman s Will is an extraordinary saga about the alluring promise of freedom and its tragic limitations
