Catastrophic Disaster Planning and Response Clifford Oliver, 2010-07-20. Presenting cutting-edge domestic and international approaches, *Catastrophic Disaster Planning and Response* explains how to effectively plan for and manage the consequences of a catastrophe. Recognizing that a business as usual approach to preparing for and responding to such events is doomed to fail, the book fills a gap in emergency management education. It introduces the many considerations that influence how we plan for and respond to large-scale catastrophes and how it differs from preparing for smaller-scale emergencies. Written by a recognized expert in emergency management, this volume is a thorough study of the planning process and response procedures for catastrophic disasters. Topics discussed include: The history of catastrophic events both in and outside the United States; How catastrophes differ from disasters and emergencies; and how they are all part of the emergency management continuum. The varying definitions

of catastrophes and their political and societal implications The main ethical and value dilemmas that one will likely face before during and after a catastrophe The legal framework associated with government response to catastrophes The post catastrophic environment that an emergency manager might experience with a focus on logistics critical infrastructure mass care and mass evacuation Planning strategies and skills an emergency manager can employ to mitigate the effects of such an event The use of crisis leadership skills and how to lead and influence others in a catastrophic situation Recent major events provide valuable lessons that demonstrate the characteristics of a catastrophic disaster the special issues of response and recovery and the necessary preparation on international national and local levels Offering best practices using recent real world case studies the book provides a foundation for continued study and critical reflection Catastrophic Disaster Planning and Response is one of only two books utilized by the U S Coast Guard USCG in their elite 2010 Flag Office SES Executive Change Leadership Program ECL curriculum The ECL program develops the executive leadership skills of USCG Admiral selects awaiting Senate confirmation as well as members of the Department of Homeland Security s federal Senior Executive Service SES which in 2010 included representatives from the U S Secret Service the Transportation Security Administration Immigration and Customs Enforcement the U S Border Patrol Citizenship and Immigration Services and FEMA Readily adaptable for classroom use this cutting edge professional reference provides qualifying instructors with access to teaching materials and a test bank
