Reconciliation of Opposites Raoul J. Adam, 2016-02-26 The recognition and reconciliation of opposites lies at the heart of our most personal and global problems and is arguably one of the most neglected developmental tasks of Western education. Such problems are wicked in the sense that they involve real life decisions that have to be made in rapidly changing contexts involving irreducible tensions and paradoxes. By exploring our human tendency to bifurcate the universe, Education for Wicked Problems, the Reconciliation of Opposites proposes a way to recognise and re-solve some of our most wicked problems. Applying an original theory of bi-relational development to wicked problems, Adam proposes that our everyday ways of knowing and being can be powerfully located and understood in terms of the creation, emergence, opposition, convergence, collapse, and transposition of dyadic constituents such as nature/culture, conservative/liberal and spirit/matter. He uses this approach to frame key debates in and across domains of knowledge and to offer new perspectives on three of the most profound and related problems of the twenty-first century: globalisation, sustainability, and secularisation. This book is a comprehensive study of dyads and dyadic relationships and provides a multidisciplinary and original approach to human development in the face of wicked problems. It will be of great interest to students and academics in education and psychosocial development as well as professionals across a range of fields looking for new ways to recognise and re-solve the wicked problems that characterise their professions.

Teaching Hope and Resilience for Students Experiencing Trauma Douglas Fisher, Nancy Frey, Rachelle S. Savitz, 2019-11 Huge numbers of our students are caught in storms of trauma, whether stemming from abuse, homelessness, poverty, discrimination, violent neighborhoods, or fears of school shootings or family deportations. This practical book focuses on actions that teachers can take to facilitate learning for these students. Identifying positive, connected teacher-student relationships as foundational, the authors offer direction for creating an emotionally safe classroom environment in which students find a refuge from trauma and a space in which to process events. The text shows how social and emotional learning can be woven into the school day, how literacies can be used to help students see a path through challenges, how to empower learners through debate, civic action, and service learning, and how to use the vital nature of the school community as an agent of change. This book will serve as a roadmap for creating uniformly consistent and excellent classrooms and schools that better serve children who experience trauma in their lives. Book Features: Makes a clear case for the need and responsibility of schools to equip students with tools to learn despite the trauma in their lives. Shows practical classroom, instructional, and curricular interactions that address trauma while advancing student academic learning. Uses literacy and civic action as pathways to empowerment. Provides a method and tools for developing a coherent plan for creating a trauma-sensitive school.

Democracy in the Disinformation Age Regina Luttrell, Lu Xiao, Jon Glass, 2021-05-23 In this book, established researchers draw on a range of theoretical and empirical perspectives to examine social media's impact on American politics. Chapters critically examine activism in the digital age, fake news, online influence, messaging tactics, news transparency, and authentication, consumers' digital habits, and ultimately

the societal impacts that continue to be created by combining social media and politics Through this book readers will better understand and approach with questions such as How exactly and why did social media become a powerful factor in politics What responsibilities do social networks have in the proliferation of factually wrong and hate filled messages Or should individuals be held accountable What are the state of the art of computational techniques for measuring and determining social media s impact on society What role does online activism play in today s political arena What does the potent combination of social media and politics truly mean for the future of democracy The insights and debates found herein provide a stronger understanding of the core issues and steer us toward improved curriculum and research aimed at a better democracy Democracy in the Disinformation Age Influence and Activism in American Politics will appeal to both undergraduate and postgraduate students as well as academics with an interest in areas including political science media studies mass communication PR and journalism

The School-to-Prison Pipeline Nancy A. Heitzeg,2016-04-11 This book offers a research and comparison driven look at the school to prison pipeline its racial dynamics the connections to mass incarceration and our flawed educational climate and suggests practical remedies for change How is racism perpetuated by the education system particularly via the school to prison pipeline How is the school to prison pipeline intrinsically connected to the larger context of the prison industrial complex as well as the extensive and ongoing criminalization of youth of color This book uniquely describes the system of policies and practices that racialize criminalization by routing youth of color out

of school and towards prison via the school to prison pipeline while simultaneously medicalizing white youth for comparable behaviors This work is the first to consider and link all of the research and data from a sociological perspective using this information to locate racism in our educational systems describe the rise of the so called prison industrial complex spotlight the concomitant expansion of the medical industrial complex as an alternative for controlling the white and well off both adult and juveniles and explore the significance of media in furthering the white racial frame that typically views people of color as criminals as an automatic response The author also examines the racial dynamics of the school to prison pipeline as documented by rates of suspension expulsion and referrals to legal systems and sheds light on the comparative dynamics of the related educational social control of white and middle class youth in the larger context of society as a whole
