Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations. Given that Hong Kong leads the way in OSM innovation, this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong. The authors discuss their experience of the validation process, demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders.

SADC Gender Protocol 2015 Barometer Morna, Colleen Lowe, Dube, Sifiso, 2016-02-22 In August 2008 Heads of State of the Southern African Development Community adopted the ground breaking SADC Protocol on Gender and Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. The SADC Gender Protocol is the only sub regional instrument that brings together existing global and continental commitments to gender equality and enhances these through time bound targets. Aligned to Millennium Development Goal Three, the original 28 targets of the Protocol targets expire in 2015. Now that 2015 is here we need to step back, assess and reposition. In June 2014 SADC Gender Ministers agreed to review the targets of the Gender Protocol in line with the Sustainable Development Goals (SDGs). In May this year ministers added that they want the Protocol to be accompanied by a Monitoring Evaluation and Results Framework. The 2015 Barometer shows that implementation is now the biggest missing gap in the quest for gender equality. Now is the time to strengthen, resolve, reconsider, reposition and re-strategise for 2030.

Zimbabwe International Monetary Fund.

African Dept., 2013-07-03 This staff report for Zimbabwe highlights the key macroeconomic challenges of taking steps to improve fiscal and external sustainability and increase financial sector stability. Zimbabwe has made good progress in restoring macroeconomic stability since the end of hyperinflation in 2009, but the economic rebound is waning and key challenges need to be tackled. Strong policies are needed to sustain the economic recovery, restore fiscal and external

sustainability and increase financial stability This would place the economy on a long term sustained inclusive growth path Implementation of indigenization and empowerment policies according to transparent rules with due respect to property rights remains essential to build investor confidence and attract needed foreign direct investment *Why Mugabe Won*

Tinashe Madebwe,Jimcall Pfumorodze,Emma Chitsove,Thabo Fiona Khumalo,2022-09-20 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of sports law in Zimbabwe deals with the regulation of

sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in Zimbabwe will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law

Mugabeism after Mugabe? Duri, Fidelis Peter Thomas, Marongwe, Ngonidzashe, Mawere, Munyaradzi, 2019-10-22 Arguably one of the long waited political handover of power globally happened in November 2017 in Zimbabwe when the former and now late 37 year long serving and divisive President Robert Gabriel Mugabe was forced out of power by a combination of forces that were spearheaded by the military's Operation Restore Legacy Mugabe's departure ushered in President Emmerson Dambudzo Mnangagwa's reign This transition has variously been characterised as marking the inauguration of the Second Republic or New Dispensation or as heralding a new Zimbabwe that is Open for Business From the moment of the investiture of President Mnangagwa's government anticipations of seismic changes to the order of doing business by both the incoming government and the larger Zimbabwean society in general were extremely high There was an expectation that international cooperation with global partners especially in the West would be restored alongside the reinvigoration of a near comatose domestic economy But did this ever happen This volume interrogates the impact of the introduction of the Mnangagwa administration from November 2017 The book seeks to broadly dissect and troubleshoot issues of continuity and change from Mugabe's reign into Mnangagwa's Second Republic In doing so the book attempts to respond to the grand question To what extent has Mugabeism that was the hallmark of Mugabe's reign continued or discontinued into the Second Republic The volume which comes as a sequel to *The end of an era Robert Mugabe and a conflicting legacy* is sure to generate interest and responses from students and academics in the fields of History International Studies Political Science Sociology and Social anthropology as well as from practitioners in the human rights transitional justice conflict resolution security studies and diplomatic fields
