Mustafa Öztürk

Zimsec O Level Mathematics 2020green Book:

Educational Response, Inclusion and Empowerment for SDGs in Emerging Economies Mustafa Öztürk, 2022-08-22 This volume analyzes cases from emerging economies in relation to the global endeavor to promote the vision of sustainable development in all forms of education It aims to discuss the significance of hearing local voices and understanding local discourse regarding strategies for action for change and the role of educational systems as a means to communicate promote and educate for the Sustainable Development Goals SDGs In this book emerging economies are defined as newly industrialized countries that have not yet reached developed status but have in a macro economic sense outpaced their developing counterparts In this context the book highlights how education in emerging economies could extend conventional economic methods to sustainability issues or depart from money based calculations and business dominated values to promotion of real life considerations and ethical environmental and humanistic values With the help of this volume readers will have a chance to look at educational response inclusion and empowerment for SDGs in countries with emerging economies and to grasp the synthesis of Education for Sustainable Development Global Citizenship Education ESD GCE within the overall national educational systems This volume focuses on early childhood through upper secondary education

Green's Functions Yuri A. Melnikov, Volodymyr N. Borodin, 2017-05-08 This book is comprehensive in its classical mathematical physics presentation providing the reader with detailed instructions for obtaining Green s functions from scratch Green s functions is an instrument easily accessible to practitioners who are engaged in design and exploitation of machines and structures in modern engineering practice To date there are no books available on the market that are devoted to the Green s function formalism for equations covered in this volume The reader with an undergraduate background in applied mathematics can become an active user of the Green s function approach For the first time Green s functions are discussed for a specific class of problems dealing with potential fields induced in thin wall structures and therefore the reader will have first hand access to a novel issue This Work is accessible to researchers in applied mathematics mechanics and relevant disciplines such as engineering as well as to upper level undergraduates and graduate students **Spectrum**
