Zimsec November 2014 Session Question 2 Worked

Zimsec November 2014 Session Question 2 Worked:

The Right to Strike in International Law Jeffrey Vogt, Janice Bellace, Lance Compa, K D Ewing, John Hendy QC, Klaus Lörcher, Tonia Novitz, 2020-03-19 This monograph was originally developed as a direct response to the claim made by members of the Employers Group at the 2012 International Labour Conference namely that the right to strike is not protected in international law and in particular by ILO Convention 87 on the right to freedom of association The group's apparent aim was to sow sufficient doubt as to the existence of an internationally protected right so that governments might seek to limit or prohibit the right to strike at the national level while still claiming compliance with their international obligations In consequence some governments have seized on the employers arguments to justify new limitations on that right The Right to Strike in International Law not merely refutes this claim but is the only complete and exhaustive analysis on this subject Based on deep legal research it finds that there is simply no credible basis for the claim that the right to strike does not enjoy the protection of international law indeed the authors demonstrate that it has attained the status of customary international law

Democracy, Elections, and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2021-03-18 The third wave of democracy that reached African shores at the end of the Cold War brought with it a dramatic decline from 1990 onwards in dictatorships military regimes one party governments and presidents for life Multiparty democracy was at the core of the constitutional revolutions that swept through most of Africa in those watershed years However that wave is either losing momentum or receding or being reversed in its entirety This volume examines democracy and elections in Africa a focus motivated by two concerns First after 30 years it is important to take stock of the state of constitutional democracy on the continent The democratic gains of the 1990s and 2000s seem to be falling by the wayside with the evidence mounting that regimes are concealing authoritarianism under the veneer of elections doing so in an international context where populist regimes are on the rise and free and fair multiparty elections are consequently no longer a given It is becoming a battle to protect and retain constitutional democracy The second reason for this volume's focus on democracy and elections is that multiparty democracy is essential for the proper functioning of the state in addressing the major problems facing Africa internal conflict inequality and lack of development and poor governance and corruption The focus of this volume is thus on how competitive politics or multiparty democracy can be realized and how through competition such politics could lead to better policy and practice outcomes

The Political Economy of Poverty, Vulnerability and Disaster Risk Management Munyaradzi Mawere, 2017-11-29 Poverty remains a thorny and topical challenge and research topic to

scholars and researchers on African development Scholars in the Global North have since the Second World War sought to research poverty and underdevelopment in Africa postulating what they think are the major causes of insipid and abject poverty in the continent but with little or no success on how to solve the poverty enigma Sadly little research and homework have been done by scholars in context in Africa on why there seems to be more production rather than eradication of poverty and vulnerability in Africa and among Africans This book is born out of the realisation for the need for both scholars on the ground and outside Africa to earnestly interrogate and reflect on the poverty situation that continues to haunt the people of Africa and rattle the conscience of the world at large With contributors from across the continent and beyond the volume offers a balanced and rigorous multi faceted analysis of Africas poverty and vulnerability from a rich tapestry of perspectives The volume is handy to scholars and students in the fields of African and development studies as well as to students of Sociology Anthropology Political Science and Policy Studies Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set) Union of International Associations,2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events **The African Union (AU)** Konstantinos D. Ebhuoma,Llewellyn Leonard,2022-06-04 This book investigates indigenous knowledge systems IKS in sub Saharan Africa thereby highlighting its role in facilitating adaptation to climate variability and change and also demystifying the challenges that prevent it from being integrated with scientific knowledge in climate governance schemes Indigenous people and their priceless knowledge rarely feature when decision makers prepare for future climate change This book showcases how Indigenous knowledge facilitates adaptation to climate change including how collaborations with scientific knowledge have cascaded into building people s resilience to climatic risks This book also pays delicate attention to the factors fueling epistemic injustice towards Indigenous knowledge which hampers it from featuring in

climate governance schemes across sub Saharan Africa The key insights shared in this book illuminate the issues that contribute meaningfully towards the actualisation of the UN SDG 13 and promote mechanisms for raising capacity for effective climate change related planning and management in sub Saharan Africa **Bureaucracy, Law and Dystopia in the United Kingdom's Asylum System** John R. Campbell,2016-12-01 The central concern of this book is to find answers to fundamental questions about the British asylum system and how it operates Based on ethnographic research over a two year period the work follows and analyses numerous asylum appeals through the British courts It draws on myriad interviews with individuals and a thorough examination of many state and non state organizations to understand how the system works While the organization of the book reflects the formal asylum process a focus on specific legal appeals reveals the political factors at play as different institutions and actors seek to influence judicial decision making and overturn uphold official asylum policy The final chapter draws on the author s ethnographic findings of the UK s asylum field to re examine research on the Refugee Determination System in the US Canada and Australia which has narrowly focused on judicial decision making It argues that analysis of Refugee Determination Systems must be situated and studied as part of a wider political semi autonomous asylum field which needs to be better understood Providing an in depth ethnographic study of a national asylum system and of immigration law and practice the book will be an invaluable resource for academics researchers and policy makers in the UK and beyond working in this highly topical area *Turning Promises Into Action* ,2018 More than two years into the life of the 2030 Agenda for Sustainable Development this report calls for dramatic advances in statistics financing and policies for gender equality as well as more determined steps towards democratic governance and accountability Based on robust data and expert analysis the report takes stock of where we stand on key aspects of gender equality globally tells us what is needed to monitor progress meaningfully and provides wideranging recommendations for change

Recognition Politics in Settler Colonial States Emile Badarin,2025-06-26 Using Palestine as a case study Recognition Politics in Settler Colonial States shows how recognition politics operate to legitimize long standing colonial power structures In existing scholarship recognition has been seen as an asset coveted by indigenous communities This book forwards a new theoretically ground breaking perspective Emile Badarin shows that in colonial contexts settlers use recognition to legitimize and normalize the dispossession and elimination of Indigenous people More than this settler colonial states themselves actively pursue recognition employing it as a means to further the elimination of the indigenous societies they seek to replace In making the case the book critically examines the Euromodern categories of race racism and racial hierarchies and draws new conclusions about the interplay between colonialism racism and Zionism Central to this analysis is how anti Zionism has been strategically equated with anti Semitism and effectively used as a tool for the advancement of both settler colonialism in Palestine and Israel s recognition on the international stage The book delves into indigenous normative resistance against colonial recognition politics through the lens of the Palestinian practice of *umud* steadfastness extracting its philosophy of

liberation as a pathway towards a decolonial future for all in Palestine and beyond Parliamentary Debates (Hansard).
