The Photograph Andrew P. Jackson,2018-12-25 What if you knew you were dying What would you do to lessen the grief of your loved ones Harry knows his time is coming and with his passing will leave his daughter Trixie all alone in the world Trixie had already lost her Mum shortly after she was born and her sister had been taken violently by her abusive husband But there were happier times Much happier times back when it was just the three of them Harry had shared his own passion for photography with them and would take his girls on trips called photo hunts challenges they would set themselves to capture the one perfect shot that would win the day Harry is sending his little girl on one final adventure solving the clues capturing the photos and ultimately discovering a truth neither of them could ever have imagined The Photograph will keep you guessing with every turn of the page as you share Trixie s journey to follow her father s footsteps to learn of the man she never knew and a future she could never have imagined Discover The Photograph for yourself and be swept away on an adventure of a lifetime 30 years in the making **Zoo** Bernard Livingston,2000-11-07 In this book ZOO the author Bernard Livingston will present a study of this world which treats it as social history But the style will be a light handed one similar to that of his previous social study Their Turf the story of the world of the racehorse and the people involved therein It is to be hoped that the fun drama humor and yes enlightenment inherent in the world of the zoo will not be lacking in this work

Zookeeping Mark D. Irwin, John B. Stoner, Aaron M. Cobaugh, 2013-12-09. As species extinction, environmental protection, animal rights, and workplace safety issues come to the fore, zoos and aquariums need keepers who have the technical expertise and scientific knowledge to keep animals healthy, educate the public, and create regional, national, and global conservation and management communities. This textbook offers a comprehensive and practical overview of the profession geared toward new animal keepers and anyone who needs a foundational account of the topics most important to the day-to-day care of zoo and aquarium animals. The three editors, all experienced in zoo animal care and management, have put together a cohesive and broad-ranging book that tackles each of its subjects carefully and thoroughly. The contributions cover professional zookeeping, evolution of zoos, workplace safety, animal management, taxon-specific animal husbandry, animal behavior, veterinary care, public education and outreach, and conservation science. Using the newest techniques and research gathered from around the world, *Zookeeping* is a progressive textbook that seeks to promote consistency and the highest standards within global zoo and aquarium operations.

Zoo Talk Patricia G. Patrick, Sue Dale Tunnicliffe, 2012-09-29. Founded on the premise that zoos are bilingual, that the zoo, in the shape of its staff and exhibits, and its visitors speak distinct languages, this enlightening analysis of the informal learning that occurs in zoos examines the speech of exhibits and staff, as well as the discourse of

visitors beginning in the earliest years Using real life conversations among visitors as a basis for discussion the authors interrogate children s responses to the exhibits and by doing so develop an informal learning model and a zoo knowledge model that prompts suggestions for activities that classroom educators can use before during and after a zoo visit Their analysis of the visitor voice informs creative suggestions for how to enhance the educational experiences of young patrons By assessing visitors entry knowledge and their interpretations of the exhibits the authors establish a baseline for zoos that helps them to refine their communication with visitors for example in expanding knowledge of issues concerning biodiversity and biological conservation The book includes practical advice for zoo and classroom educators about positive ways to prepare for zoo visits engaging activities during visits and follow up work that maximizes the pedagogical benefits It also reflects on the interplay between the developing role of zoos as facilitators of learning and the ways in which zoos help visitors assimilate the knowledge on offer In addition to being essential reading for educators in zoos and in the classroom this volume is full of insights with much broader contextual relevance for getting the most out of museum visits and field trips in general
