With four color graphics and screenshots throughout, *Pro Silverlight 2 in VB 2008* is the perfect reference you'll learn about the features that put Silverlight in direct competition with Adobe Flash, such as rich support for 2D drawing, animations, and media playback, and best of all, you'll experience the plumbing of .NET and the design model of Windows Presentation Foundation through Silverlight, all of the same .NET technology that developers use to design next-generation Windows applications. Author Matthew MacDonald provides an expertly crafted tutorial written from professional developer to professional developer.
