Anthropology Matters Shirley A. Fedorak, 2012-06-13 The second edition of this popular text has been updated throughout and includes four new chapters on language revitalization social media and social revolutions human migration and the role of NGOs in international development practice *Literature and the Glocal City* Ana María Fraile-Marcos, 2014-07-17 The modern city is a space that can simultaneously represent the principles of its homeland alongside its own unique blend of the cultures that intermingle within its city limits This book makes an intervention in Canadian literary criticism by foregrounding both globalism which is increasingly perceived as the state of the art literary paradigm and the city These are two significant axes of contemporary culture and identity that were previously disregarded by a critical tradition built around the importance of space and place in Canadian writing Yet as relevant as the turn to the

city and to globalism may be this collection's most notable contribution lies in linking the notion of glocality that is the intermeshing of local and global forces to representations of subjectivity in the material and figurative space of the Canadian city. Dealing with oppositional discourses as multiculturalism, postcolonialism, feminism, diaspora, and environmentalism, this book is an essential reference for any scholar with an interest in these areas. *Magazine Trend Report*, 2009 **Everyday Life in Medieval London** Toni Mount, 2014-03-15 Step back in time to medieval London to find out about the lives of those working and living there. *Thomas Keneally's Career and the Literary Machine* Paul Sharrad, 2019-08-30 Booker Prize winner and Living National Treasure Thomas Keneally still divides critical opinion; he is both a morally challenging stylist and a commercial hack, a wise commentator on society and a garrulous leprechaun. Such judgements are located in the cultural politics of Australia but also linked to ideas about what a literary career should look like. Thomas Keneally's *Career and the Literary Machine* charts Keneally's production and reception across his three major markets, noting clashes between national interests and international reach, continuity of themes and variety of topics, settings and genres, the writer's interests and the publishers' push to create a brand, celebrity fame and literary reputation, and the tussle around fiction, history, allegory, and the middlebrow. Keneally is seen as playing a long game across several events rather than honing one specialist skill, a strategy that has sustained for more than 50 years his ambition to earn a living from writing. **Encyclopedia of Consumption and Waste** Carl A. Zimring, William L. Rathje, Consulting Editor, 2012-02-27 Archaeologists and anthropologists have long studied artifacts of refuse from the distant past as a portal into ancient civilizations, but examining what we throw away today tells a story in real time and becomes an important and useful tool for academic study. Trash is studied by behavioral scientists who use data compiled from the exploration of dumpsters to better understand our modern society and culture. Why does the average American household send 470 pounds of uneaten food to the garbage can on an annual basis? How do different societies around the world cope with their garbage in these troubled environmental times? How does our trash give insight into our attitudes about gender, class, religion, and art? The *Encyclopedia of Consumption and Waste* explores the topic across multiple disciplines within the social sciences and ranges further to include business, consumerism, environmentalism, and marketing to comprise an outstanding reference for academic and public libraries. *The Digital Is Kid Stuff* Josef Nguyen, 2021-12-28 How popular debates about the so-called digital generation mediate anxieties about labor and life in twenty-first century America. The children are our future goes the adage, a proclamation that simultaneously declares both anxiety as well as hope about youth as the next generation. In *The Digital Is Kid Stuff* Josef Nguyen interrogates this ambivalence within discussions about today's digital generation and the future of creativity, an ambivalence that toggles between the techno-pessimism that warns against the harm to children of too much screen time and a techno-utopianism that foresees these digital natives leading the way to innovation, economic growth, increased democratization, and national prosperity. Nguyen engages cultural histories of childhood, youth, and creativity through chapters that are each anchored to a

particular digital media object or practice Nguyen narrates the developmental arc of a future creative laborer from a young kid playing the island fictions of Minecraft to an older child learning do it yourself skills while reading Make magazine to a teenager posting selfies on Instagram to a young adult creative laborer imagining technological innovations using design fiction Focusing on the constructions and valorizations of creativity entrepreneurialism and technological savvy Nguyen argues that contemporary culture operates to assuage profound anxieties about and to defuse valid critiques of both emerging digital technologies and the precarity of employment for creative laborers in twenty first century neoliberal America *Thinking Barcelona* Edgar Illas,2012-10-10 A study of the ideological work that redefined Barcelona in the 1980s and adapted it to a new economy of tourism culture and services It examines political speeches scripts of the 1992 Olympic Games ceremonies architect Oriol Bohigas s urban renewal and fictions by Quim Monzó Francisco Casavella Eduardo Mendoza and Sergi Pàmies
