Rapture Ready! Daniel Radosh, 2008-04-08 What does it mean when a band is judged by how hard they pray rather than how hard they rock Would Jesus buy Jesus junk or wear witness wear What do Christian skate parks raves and romance novels say about evangelicalism and America Daniel Radosh went searching for the answers and reached some surprising conclusions Written with the perfect blend of amusement and respect Rapture Ready is an insightful entertaining and deeply weird journey through the often hidden world of Christian pop culture This vast and influential subculture a 7 billion industry and growing can no longer be ignored by those who want to understand the social spiritual and political aspirations of evangelical Christians In eighteen cities and towns throughout thirteen states from the Bible Belt to the outskirts of Hollywood Radosh encounters a fascinating cast of characters including Bibleman the Caped Christian Rob Adonis the founder and star of Ultimate Christian Wrestling Ken Ham the nation's leading prophet of creationism and Jay Bakker the son of Jim and Tammy Faye Bakker and pastor of his own liberal punk rock church From Christian music festivals and theme parks to Passion plays and comedy nights Radosh combines gonzo reporting with a keen eye for detail and just the right touch of wit Rapture Ready is a revealing survey of a parallel universe and a unique perspective on one of America's most important social movements **The New Middle Classes** Hellmuth Lange, Lars Meier, 2009-06-10 With respect to the

developing and threshold economies it is no longer the poor who are the only focus of media attention Today the new middle classes are about to take centre stage too With their lifestyles and attitudes the new middle classes are considered to be both the products as well as the promoters of globalization They are a highly heterogeneous group in socio economic terms as well as in habits 1 and preferences including their societal role as consumers and citizens The first wave of scholarly and political attention can be traced back to the mid nineties The focal point was surprise and unease about indubitable symptoms of consumerism which until then had been seen as a characteristic of the richest western societies However since the nineties consumerism has run rampant in developing countries too This has particularly been noted with respect to the emerging middle classes in South East Asia The will to consume seemed inexhaustible and appetites insatiable This rage to consume was both celebrated and feared by political leaders and other social moral gatekeepers who began to condemn the process as Westernization and even westoxication Chua 2000 xii Ever since the debate about the lifestyles of the new middle classes and their role in society has gained momentum **Media and Health** Clive Seale, 2003-01-17 This book appears to fill a substantial gap in the literature at present There are quite simply no books available which engage seriously and

competently with the presentation of health issues in the media and certainly none which focuses on representations of health and illness in as thematically coherent a manner as Seale proposes to do Richard Gwyn University of Cardiff This is an excellent resource for students It provides a comprehensive review of secondary literature in the field and is very well researched Students of sociology of health and illness and in media and communication studies will find the book invaluable David Oswell Goldsmiths College University of London This is a comprehensive work on media health providing an invaluable toolkit for understanding health and the media in contemporary society Seale goes further than previous textbooks critiquing the lament of media health promoters in order to explore the moralisation and commercialisation of media health Dr Annette Hill University of Westminster How are health matters presented by the mass media How accurate are the messages we are receiving This book demonstrates how health messages in popular mass media are important influences in our lives and that they are not neutral being subject to many determining influences It demonstrates the importance of mass media for understanding the experience of illness health and health care bringing together the latest thinking in the field of media studies and the sociology of health and illness This book provides a thorough review of research literature on media representations of health illness and health care covering their production characteristic forms and relationships with the everyday lives of media audiences It brings together both well known and lesser known studies in the context of an integrated sociological argument about media and health Media producers are subject to a variety of influences from medical lobbies scientific organizations and not least the commercial pressure to satisfy media saturated audiences These mean that aims of health promoters are not always easily achieved leading to considerable tensions that require a deeper understanding of media health than has hitherto been applied to them This book will be essential reading for health educators and promoters as well as health care providers interested in the cultural aspects of health sociologists of health and illness and students and academics of media studies      **Ulrich's International Periodicals Directory** ,1996
