

Home Offices

Working from home is no problem with heated floors. Radiant heating systems keep your office comfortable no matter what season it is.

Sunrooms

Sunrooms have lots of windows which can make for a frigid area during the winter. Heated floors make sunroom accessible and comfortable year-round.

Bedrooms

Everyone loves a cozy bedroom, and nothing makes a room cozier than toasty temperatures.

Kitchens

Kitchens generally have cold tile flooring. They also tend to have a bit of humidity, making heated floors the perfect alternative to forced air.

Garages

Having heated floors in your garage can help control snow in the winter and keep your garage comfortable when you're working on your car.

Driveways

When you install a radiant heating system under your driveway, you don't have to worry about ice and snow removal. Instead, simply turn on your system and let it melt away the ice and snow from your driveway.

Basements

Basements are often damp and cold, but a radiant floor heating system can keep them comfortable. Since heat rises, a radiant system in your basement can help warm your whole house.

Bathrooms

Bathrooms are a terrific room for radiant heating, because no one likes stepping out of a shower onto a freezing floor.
