

This is a detailed wiring diagram of a vehicle's electrical system. The diagram shows a complex network of colored wires (red, blue, green, yellow, black) connecting various components. Key components include a battery at the top, an alternator (V) on the right, an engine (E) in the center, and various sensors and actuators like the throttle cable (T), fuel pump (F), and water pump (W). The diagram also shows the connection to the vehicle's chassis (G) and the engine block (M). The wiring is organized into a structured layout, with many wires running horizontally and vertically across the diagram.
