Gildiner,2010-05-21 During her decade in prison Kate Fitzgerald has learned a few things The best way to survive is to absorb yourself in your own world Never make eye contact with your fellow inmates And the last person you can trust is your prison psychiatrist not only is he likely to be lazy and incompetent really why else wouldn t he be getting rich off of well heeled clients instead but if you complain about him you re going to be labelled as a permanent malcontent and denied parole So when Dr Gardonne offers Kate a temporary absence and a job working for him she only takes it because she knows that turning him down could be worse for her in the long run counted in prison years of course But the real challenge is figuring out why he would choose her On the surface it s pretty clear Kate has spent her incarceration immersing herself in

the writings of Sigmund Freud and has become a recognized expert on his work Dr Gardonne represents the members of a psychoanalytic organization that is being attacked at its core Anders Konzak the hand picked director of the Freud academy has been boasting to the media that his new research on Freud will bring the entire profession of psychoanalysis to its knees He s also been receiving death threats And Kate as an outsider is the only one Konzak will talk to Though she doesn t trust Gardonne Kate accepts his offer and she races to uncover Konzak s secrets before he publishes his work Never one to work well with others Kate is less than thrilled to find out Gardonne has hired a private detective to be her partner Jackie Lawton is a hardened ex con who has spent most of his life in prison and only recently turned things around by starting his own business From the moment the two meet Kate sees that it won t be easy working with a man who isn t really interested in the intellectual battle at hand and who keeps her prison time at the forefront of every conversation And can he really be trusted When key players who were all last seen with Kate begin to turn up dead there s the very real possibility she s being set up by Gardonne After all who would believe the word of a convict serving time for murdering her husband All she can hope is that following the threads of Konzak s research to his sources will keep her one step ahead of Gardonne and lead her to the real killer With Seduction Catherine Gildiner gives us not only a gripping detective story full of shifting characters and fast paced twists but a remarkable intellectual thriller Through the letters and papers of Sigmund Freud Charles Darwin and the venerable Wedgwood family Gildiner brings the personalities and ideological conflicts of the past to life in the present Along the way we meet an assortment of characters from social misfits to the demure but resolute Anna Freud who is still living in the London house where she brought her ailing father for the last year of his life and where she actively guards his legacy The story takes us from Toronto to Vienna London the Isle of Wight New York and back again to Toronto each locale seen through the eyes of Kate who relishes in the beauty of a world that has been denied to her for a decade The 13: We All Start As Strangers Aaliyah S,2016-10-21 Rockfield High University is one of Seoul s most prestigious educational institutes where people of different ethnicities enroll to make their dreams come true But since June 1 2015 women in their twenties have started going missing Seoul s streets are no longer safe and walking late at night is prohibited Aria Heart is nineteen half American and carefree She s cute friendly and mostly careless of her surroundings and belongings She misplaces her diary somewhere and even though Aria isn t worried her best friend plans a break in at the university just to get it back They never could have foreseen the effects of their actions Detective Oh Yejun is a criminal catching prodigy He begins his time at Rockfield High University by studying the cases of the missing girls but soon progresses to another case that leaves him completely baffled How are the missing women related What does Aria Heart have to do with it and can Yejun make sense of the seeming chaos before it s too late **When the Dogwoods Bloom** Collin S. Douglas,2012-02-18 The year is 2030 the United States has gone through a radical change Only government agencies have access to the internet and cell phones The morality of the country is non existent However it is also a time of great discoveries in the field of medicine Yet those are
