Techniques and Interventions for Play Therapy and Clinical Supervision Fazio-Griffith, Laura Jean, Marino, Reshelle, 2020-09-25 The use of techniques and interventions for play therapy during the supervision process for graduate and post graduate counselors provides a host of benefits for the counseling student post graduate intern and supervisor The counselor in training is able to experientially integrate theory with practice through the use of different modalities that provide reflection and insight into their work with clients Additionally the use of techniques and interventions for play therapy allows a secure and strong supervisory relationship which allows the counselor in training to explore personal and professional goals verbalize and conceptualize client issues goals and effective interventions and develop counselor client relationships that allow the client to progress during the therapeutic process However play therapy techniques and interventions are not often incorporated into the supervision process unless the clinician is a registered play therapist being supervised by a registered play therapist supervisor **Techniques and Interventions for Play Therapy and Clinical Supervision**

is a critical reference source that provides an opportunity for all clinicians to incorporate play therapy techniques and expressive art interventions into the process of supervision. It presents techniques and methods that allow for more effective supervision for counselors in training which allows for more effective service delivery to clients. Highlighting topics that include play techniques in supervision, cognitive behavioral play therapy and trauma, this book is ideal for individuals in a university, clinical school, agency, etc. setting who provide supervision for counselors in training, including graduate students and postgraduate students. The book is an excellent supplement for clinical courses at universities with counseling programs and play therapy programs as well as universities with graduate social work and psychology programs that have play therapy courses and provide play therapy supervision.

Evidence-Based CBT for Anxiety and Depression in Children and Adolescents Elizabeth S. Sbrulati, Heidi J. Lyneham, Carolyn A. Schniering, Ronald M. Rapee, 2014-04-08. Evidence Based CBT for Anxiety and Depression in Children and Adolescents. This should be on the bookshelf of everyone treating anxious and depressed children and adolescents. A cornucopia of theory and clinical good sense alike. I will be making sure that my trainees read it cover to cover. Dr. Samantha Cartwright-Hatton, Senior Clinical Research Fellow in Psychology, University of Sussex. This is the first book to offer an explicitly competencies-based approach to the cognitive behavioral treatment of anxiety and depression in children and adolescents. Within it, an outstanding and influential set of experts in the field describe a comprehensive model of therapist competencies required for empirically supported cognitive behavioral treatment. They explore each of these competencies in great detail and highlight effective ways of training them. As a result, the book not only supports the training, development, and assessment of competent clinicians who are implementing CBT, it is also invaluable for clinicians who wish to gain an understanding of the competencies they need to acquire or improve and offers guidelines for how to achieve these, providing a benchmark against which they can assess themselves. Evidence Based CBT for Anxiety and Depression in Children and Adolescents works to improve the quality of therapists working in this area and, as a result, the quality of treatment that many young people receive.
