

Technique	Description
Mirror Technique <i>insight</i>	Typically used after a Psychodrama, the patient looks as into a mirror while an assistant (D) plays her role (A) and the therapist (C) plays antagonist (B).
Doubling <i>insight</i>	The patient (A) sits back-to-back with an assistant (B). The patient is asked to talk about her problems out loud and B voices her thoughts as her alter ego.
“Behind your back” Technique <i>idiopanima</i>	In group therapy, the patient (A) discusses problem for 10-30 minutes, A then goes behind a screen, and each member is urged to make a comment about the “absent member”, then return for discussion.
Auxiliary Chair Technique <i>insight</i>	Chairs are substituted for the patient and/or characters from the patient’s life or to externalize the patient’s psyche. This technique is useful for shy patients.
Black-out Technique <i>catharsis</i>	The room is darkened, but the patient acts as if in full daylight. The goal is for the patient to go through a painful experience unobserved in privacy, in order to achieve catharsis.
Soliloquy Technique <i>catharsis</i>	The subject turns to one side and expresses her thoughts and feelings in a voice different than she normally uses.

Suicide David Lester Ph.D., James R. Rogers, 2013-10-29. Intended for the general reader, this masterful compilation probes the psychology of suicide, revealing the latest research and spotlighting global efforts to reduce the million suicide deaths each year. Exceeding previously available studies in both scope and depth, the two-volume *Suicide: A Global Issue* explores and explains both why suicides and suicide attempts occur and what can be done to prevent them. The first volume, *Understanding*, considers factors that may play into the choice to take one's life, discussing forces as varied as culture, psychology, religion, and biology. The second volume, *Prevention*, covers steps that can be taken to prevent suicide, whether individually or by society as a whole. Articles by widely respected experts consider questions such as why people kill themselves, why some countries have extremely high suicide rates, and whether the treatment of suicidal individuals actually prevents them from taking their lives. Each chapter presents incidents, research, and actions from nations around the globe as well as from the United States.

Handbook of African American Psychology Helen A. Neville, Brendesha M. Tynes, Shawn O. Utsey, 2008-11-12. The *Handbook of African American Psychology* provides a comprehensive guide to current developments in African American psychology. It presents theoretical, empirical, and practical issues that are foundational to African American psychology. It synthesizes the debates in the field and research designed to understand the psychological, cognitive, and behavioral development of African Americans. The breadth and depth of the coverage in this handbook offers both foundational material and current developments. Although similar topics will be covered in this text that are included in other works, this will be the only work in which experts in the field write on contemporary debates related to these topics. Moreover, the proposed text incorporates other issues that are typically not covered in related books. The contributing authors also identify gaps in the literature and point to future directions in research, training, and practice.

Key Features: Contains the writings of renowned editors and contributors.
