continued adherence has allowed me to be able to maintain this weight I offer advice on how to prevent some of the problems that I encountered by following such a rigorous diet I also provide some very inexpensive and easy to prepare low calorie recipes that I concocted that are good appetizers and filler uppers While writing in my usual witty satire manner I discuss some potentially dangerous situations that exist explain why certain drugs should be avoided at all costs and mention several foods that should be eliminated from a young persons diet I provide some of my own little homemade poems along the way so that I can keep the youngsters mind occupied and interested in what I have to say Through my experiences as having served as coroner I disclose many hazards that exist all around us and mention some simple things that young people tend to forget that too often result in unnecessary deaths Also by making overweight and diabetic adolescents aware of certain chemical reactions that are continuously occurring inside our bodies hopefully they would be in a better position to understand and interpret my suggestions So in brief I have something to offer all my young readers from the most extrememly diet planto the most realistic and conservative In a nutshell I lived through what I now warn others about since I found out too late what obesity could do to our body Also I explain why obesity is not just an adult problem and discuss both the teenage drug problem and the scare involving sexual diseases among our youths
