Verizon Untethered Ivan Seidenberg, 2018-05-01 The Verizon leadership team stands apart from most leadership teams today in their willingness repeatedly to put the enterprise before the individual At first blush this might look like a hopelessly old fashioned notion in the age of the selfie Yet I would argue this is a trait that future leaders and boards of directors across industries would do well to understand and embrace Seidenberg not once but twice in the service of company shareholders and employees subordinated himself and put off taking sole leadership of the company to advance the enterprise's odds of success And many others in this story exhibited the same trait to help build this industry leading enterprise They understood that the risk of not acting and thereby destroying value during a period of accelerating technological change and industry consolidation a situation faced by leadership teams around the world today was much greater than the risk of stepping in as No 2 or co CEO In my 50 years of experience it is a rare leadership team that will subordinate itself for the benefit of the industry customers and the company That principle that the company comes first the individual second is what will define successful leadership teams of the future Multiple leadership principles some new some timeless emerge from this narrative and will be of great use to the next generation of leaders across industries and around the world By taking a look at a company that successfully executed exponential transformation we can take the strategies of Verizon leaders and apply them to our own experiences Ram Charan

Terror in Transition Tricia Bacon, Elizabeth Grimm, 2022-09-13 What is the role of founding leaders in shaping terrorist organizations What follows the loss of this formative leader These questions are especially important to religious terrorist groups in which leaders are

particularly revered Tricia L. Bacon and Elizabeth Grimm provide a groundbreaking analysis of how religious terrorist groups manage and adapt to major shifts in leadership. They demonstrate that founders create the base from which their successors operate. Founders establish and explain the group's mission and they determine and justify how it seeks to achieve its objectives. Bacon and Grimm argue that how successors position themselves in terms of the founder shapes a terrorist group's future course. They examine how and why different types of successors choose to pursue incremental or discontinuous change. Bacon and Grimm emphasize that the instability surrounding succession can place a group at its most vulnerable the precise time to explore options to weaken or defeat it. Bacon and Grimm highlight similarities between Islamic terrorist groups abroad and Christian white nationalist groups such as the 1920s Ku Klux Klan in the United States. Drawing on extensive field research in Afghanistan, Somalia, and Pakistan, *Terror in Transition* features detailed analysis of groups such as al-Shabaab, Egyptian Islamic Jihad, and al-Qaeda in Iraq, the Islamic State in Iraq, as well as the KKK. Offering a rigorous theoretical perspective on terrorist leadership transition, this policy-relevant book provides actionable recommendations for counterterrorism practitioners.

Succession Planning Christopher M. Parfitt, 2022-12-13 Succession planning is a concept not well known nor used in education. Businesses, non-profit entities, medical organizations, and the military have used many of the concepts for decades with varying degrees of success. A framework and practical guidelines are provided for anyone with hiring authority or interest in leadership development in educational organizations. The identification of future talent, the targeted and specific development and mentoring, and the retention of the most promising employees comprise the three major components to a quality plan. Most importantly, the unique organizational culture must be considered across every phase. A lack of planning can be costly and detrimental to performance, which in an educational setting equates to lower student achievement. A quality succession plan can be used to foster engagement from all levels of stakeholders and ensure qualified individuals are prepared to assume positions of greater authority at every level of the organization. There is no universal answer; no one-size-fits-all approach. However, with strategic initiatives and the proper support from senior leaders, a leadership pipeline can be established in any educational organization, not just for the present but for future needs.
