Who Comes Next? Meridith Elliott Powell, MBA, CSP, Mary C. Kelly, PhD, 2022-04-19 Leaders leave It s inevitable It might even happen today Are you prepared Every organization needs a plan for leadership succession but few leaders know how to start the process WHO COMES NEXT solves that problem and easily guides you through the steps of creating a viable succession plan The book simplifies the process and gives you the tools you need to build and activate your leadership succession Whether you are part of a small family business or a Fortune 500 company you need to start now by answering the question WHO COMES NEXT This book is a comprehensive look at succession planning but with a refreshing spin that favors the practical over the theoretical It s applicable to any industry and readers will benefit from action items tools and resources with every chapter Succession planning has never been more critical and this book is a must read for any professional looking to answer the question Who Comes Next Michael Delucchi President and Chief Elevation Officer The Elevate Group Meridith and Mary are my go to experts for succession planning and they ve created the definitive guide for how to build a strong succession plan In this book they break it down give you a strategy and deliver everything you need to create leadership depth at every level of your organization Angela Cox Weston President Midwest Speakers Bureau Succession planning goes way beyond the person at the head of the company Depth on the bench is essential to ensure an organization s resiliency and contingency planning Eric Holloway Captain U S Navy ret Talent Management in Small Advanced Economies Snejina Michailova, Dana L. Ott, 2019-09-16 Talent Management in Small Advanced Economies explores ideas of talent and talent management and why it matters in the context of small advanced economies Snejina Michailova and Dana L Ott incorporate practitioner and consultant s views to examine attracting developing and retaining talent in small developed economies globally **Central Veterinary Conference Proceedings** ,2002 Talent Management Eddie Blass, 2009-01-30 Talent management is the hot topic for HR managers and chief executives in organizations today Based on over two years of research this book draws out key ideas to draw on in the future It presents case studies of public private and multinational organizations as well as commentary on defining and developing talent **Our energy future is not set in stone** CHARLEZ Philippe A., 2014-06-01 If technology is an undeniable catalyst for progress then energy is its inevitable basic food It is no coincidence that since the industrial revolution economic growth has been fuelled first by coal then by oil gas Although energy intensity reserves are still sizeable in emerging economies and the technological catalyst can partially dematerialize growth it is unrealistic to separate growth from its basic food And even if the fossil energies share oil gas coal will lose a few percent to nuclear and renewable energies over the next decades all the indicators point to a world mix in which the fossil energy share will still top 75% by 2035 Driven by growth in emerging countries the demand for oil and gas will continue to grow steadily Even if there are enough oil and gas reserves to see us through the next three decades will the industry be able to exploit and produce new resources that are increasingly complex to develop at a sufficient rate and which

are often located in politically unstable countries Not to mention the added challenge of the growing numbers of stakeholders who are increasingly insistent on industrial safety environment and societal issues In particular will non conventional resources whose production growth could defer the oil gas peaks by several decades be able to withstand political and environmental lobbies The evolution of oil gas landscape over the past few years reveals a disturbing increase in the time required to develop large new fields and an accelerated decline of the production base due to the ageing of most of the mature field facilities This book aims to analyze all the critical factors technical political economic social and human that could potentially accelerate or delay the maintenance and redevelopment of mature producing fields as well as the discovery and development of new conventional and unconventional resources Insofar as in 2035 oil and gas still account for more than half of the world primary energy consumption the appropriate management of these critical factors is crucial to ensuring at least in the medium term the Grail of Growth However the hope of achieving the 450 ppm targets of Copenhagen has been shattered bad news for the human population which is becoming more concerned with ensuring its short term growth than with its long term survival Our energy future is not set in stone Contents 1 The food of growth 2 Limiting the decline of the basement 3 The increasing complexity of new developments 4 Reaching excellence in safety 5 Obtaining an environmental and social license to operate 6 The Energy of the Energy 7 Our energy future is not set in stone

Industrial Aviation ,1945 **Urban Poetics in the French Renaissance** Elisabeth Hodges,2016-12-05 The city view forms the jumping off point for this innovative study which explores how the concept of the city relates to the idea of the self in early modern French narratives At a time when print culture cartography and literature emerged and developed together the city view a picture or topographic image of a city became one of the most distinctive and popular products of the early modern period Through a construct she calls urban poetics Elisabeth Hodges draws out the relationship between the city and the self showing the impact of the city in cultural production to be so profound that it cannot be extricated from what we know by the name of subjectivity Each chapter of the book brings focus to a crucial text that features descriptions of the self in the city by the writers Villon Corrozet Sc ve and Montaigne and investigate how representations of urban experience prepared the way for the emergence of the autonomous subject Charting a course between cartography literary studies and cultural history this study opens new vistas on some of the period s defining problems the book the subject the city Marcel Duchamp and the Architecture of Desire Dr Penelope Haralambidou,2013-12-24 Marcel Duchamp and the Architecture of Desire examines the link between architectural thinking and Duchamp s work By employing design drawing and making the tools of the architect Haralambidou s work performs an architectural analysis of Duchamp s final enigmatic work Given 1 The Waterfall 2 The Illuminating Gas demonstrating an innovative research methodology able to grasp meaning beyond textual analysis This novel reading of his ideas and methods adds to but also challenges other art historical interpretations Through three main themes allegory visuality and desire the book defines and theorises an alternative drawing practice positioned between art and architecture that predates and includes Duchamp

Capitalscapes Matthew Philip McKelway,2006-02-28 Following the destruction of Kyoto during the civil wars of the late fifteenth century large scale panoramic paintings of the city began to emerge These enormous and intricately detailed depictions of the ancient imperial capital were unprecedented in the history of Japanese painting and remain unmatched as representations of urban life in any artistic tradition Capitalscapes the first book length study of the Kyoto screens examines their inception in the sixteenth to early seventeenth centuries focusing on the political motivations that sparked their creation Close readings of the Kyoto screens reveal that they were initially commissioned by or for members of the Ashikaga shogunate and that urban panoramas reflecting the interests of both prevailing and moribund political elites were created to underscore the legitimacy of the newly ascendant Tokugawa regime Matthew McKelway s analysis of the screens exposes their creators masterful exploitation of ostensibly accurate depictions to convey politically biased images of Japan s capital His overarching methodology combines a historical approach which considers the paintings in light of contemporary reports diaries chronicles ritual accounts with a thematic one isolating individual motifs deciphering

their visual language and comparing them with depictions in other works McKelway's combined approach allows him to argue that the Kyoto screens were conceived and perpetuated as a painting genre that conveyed specific political meanings to viewers even as it provided textured details of city life Students and scholars of Japanese art will find this lavishly illustrated work especially valuable for its insights into the cityscape painting genre while those interested in urban and political history will appreciate its bold exploration of Kyoto's past and the city's late medieval martial elite
