Sueur De Sang:

The Poetry of Pierre Jean Jouve Margaret Callander,1965 *Codex Bezae* Parker,Christian Amphoux,2019-07-01 A group of biblical and patristic scholars and palaeographers met in Lunel Herault in June 1995 to discuss the many questions posed by Codex Bezae to our understanding of the use of the Gospels and Acts in early Christianity and of the text of the New Testament This collection makes the papers and debates of the colloquium available for a wider discussion The papers cover two broad areas The first addresses palaeographical questions The second covers textual matters subdivided between the Gospels and Acts The 24 contributors include J N Birdsall J Irigoin L Holtz B D Ehrman M W Holmes J K Elliott J M Auwers and M Boismard There is an introduction by the editors who also provide analyses of each main section The range of interests represented by the participants and by the papers has already stimulated fresh developments

The Pen and the Cross Richard Griffiths,2010-02-09 This incisive and perceptive new book concerns Catholic Literature in Britain since 1850 To many people Roman Catholicism is culturally foreign and other And yet some of the most outstanding writers of recent times have been Catholics often converts such as Evelyn Waugh Graham Greene Muriel Spark and David Jones In every case these authors Catholicism was integral to their creative genius and they represent an important strand in any account of English literature Professor Griffiths account is set against a wide and varied canvas It gives a full account of the growth of Catholicism as a cultural social and political force in Great Britain since Newman Griffiths is concerned also to relate his story to movements on the continent and examines on his way the impact of French Catholic writers such as Huysmans Peguy and Mauriac on their British counterparts and the influence of British Catholic writers such as Newman Faber and Chesterton on Europe Bulletin Institut national genevois,1865

The Franco-Prussian War Karine Varley,2024-06-14 The Franco Prussian War of 1870 71 has traditionally been seen as a limited conflict between French and German forces This edited volume challenges this view and shows that it was a war of ideas values and perceptions which transformed the political diplomatic and military culture across Europe Based on interdisciplinary research the book suggests that the war raised new questions about power the nation violence and notions of civilization which brought about a decisive shift in how warfare was experienced and perceived While the Franco Prussian War may have begun as a traditional dynastic struggle it became a modern war and an important precursor to the First World War in its use of new weaponry and industrialized warfare At the same time the development of humanitarian movements and international law on the conduct of war meant that the fighting was subjected to unprecedented scrutiny while new technologies accelerated the pace at which narratives about the war were constructed and consumed This volume will appeal to scholars in the fields of war studies international relations and diplomacy and intellectual and cultural history It will also be a useful addition to undergraduate and postgraduate courses on nineteenth century European history and cultural studies **Medical Lexicon** Robley Dunglison,1853 **On the Opuscula of Theophrastus**
