could think of to harness her dog Solo's boundless energy and enthusiasm until a behavior coach suggested she try training him to be a working dog. What started out as a hobby soon became a calling as Warren was introduced to the hidden universe of dogs who do this essential work and the handlers who train them. Her dog Solo has a fine nose and knows how to use it but he's only one of many astounding dogs in a varied field. Warren interviews cognitive psychologists, historians, medical examiners, epidemiologists, and forensic anthropologists as well as the breeders, trainers, and handlers who work with and rely on these intelligent and adaptable animals daily. Along the way, Warren discovers story after story that prove the capabilities as well as the very real limits of working dogs and their human partners. Clear-eyed and unsentimental, Warren explains why our partnership with working dogs is woven into the fabric of society and why we keep finding new uses for the wonderful noses of our four-legged friends.
