

Sugar Wax Recipe

for Natural Hair Removal

Ingredients:

200 grams of sugar
60 ml of lemon juice
60 ml of water

How to do it:

1. Add all these ingredient to a saucepan and stir to combine let it come to a boil slowly.
2. After it begins to boil, simmer on a medium-low setting and stir regularly.
3. When the mix is a nice golden brown it's all done and you can remove from the heat.
4. Pour your sugar wax into a container and let it cool for half an hour.
5. Spoon some of the mix into your hands and roll it around until it becomes a ball.
6. If the area you want to wax is dry and clean, you're all ready to get rid of that hair. Spread a thick layer of the wax and let it sit and harden for a minute.
7. Carefully raise up one corner of the wax, enough to be able to grab onto it and pull.
8. Take a breath and go ahead and pull away in the direction of your hair growth.
9. Now rinse the skin with warm water to remove the sugar residue and reveal your smooth skin.
