Geological Survey of Canada, 1921*      **The Limits to Travel** David Metz, 2012-05-16 A highly readable but challenging perspective on the established conventions of transport policy planning and economic appraisal a fascinating tour d horizon of topical transport issues David Quarmby CBE chairman of the Independent Transport Commission David Metz again challenges conventional thinking in transport through a fundamental reinterpretation of the limits of travel time and human mobility arguing that there should be maximum limits set for mobility if we are to avoid unacceptable environmental damage David Banister professor of transport studies Oxford University The first      **The Great Disruption** Paul Gilding, 2012-02-02 It s time to stop just worrying about climate change says Paul Gilding Instead we need to brace for impact because global crisis is no longer avoidable The Great Disruption started in 2008 with spiking food and oil prices and dramatic ecological change like the melting polar icecap It is not simply about fossil fuels and carbon footprints We have come to the end of Economic Growth Version 1 0 a world economy based on consumption and waste where we lived beyond the means of our planet s ecosystems and resources The Great Disruption offers a stark and unflinching look at the challenge humanity faces yet also a deeply optimistic message The coming decades will see loss suffering and conflict as our planetary overdraft is paid However they will also bring out the best humanity can offer compassion innovation resilience and adaptability Gilding tells us how to fight and win what he calls the One Degree War to prevent catastrophic warming of the earth and how to start today The crisis we are in represents a rare chance to replace our addiction to growth with an ethic of sustainability and it s already happening It s also an unmatched business opportunity old industries will collapse while new companies literally reshape our economy In the aftermath of the Great Disruption we will measure growth in a new way It

will mean not quantity of stuff but quality and happiness of life And yes there is life after shopping The Great Disruption is an invigorating and well informed polemic by an advocate for sustainability and climate change who has dedicated his life to campaigning for a balanced use of Earth s limited resources It is essential reading      *Encyclopedia of Climate and Weather* Dr. Stephen H. Schneider, 2011-06-09 This three volume A to Z compendium consists of over 300 entries written by a team of leading international scholars and researchers working in the field Authoritative and up to date the encyclopedia covers the processes that produce our weather important scientific concepts the history of ideas underlying the atmospheric sciences biographical accounts of those who have made significant contributions to climatology and meteorology and particular weather events from extreme tropical cyclones and tornadoes to local winds      **Beyond Stern** Great Britain: Parliament: House of Commons: Environmental Audit Committee, 2007-07-30 This report is about how the Government sets targets for reductions in UK green house gases assess progress towards these targets by forecasting the likely levels of future emissions choose policy instruments to deliver the requisite cuts in emissions and revises its package of policies in the light of experience It is two main parts the first looks at the Climate Change Programme Review whilst the second examines the proposed Climate Change Bill The Climate Change Programme Review revealed a number of weaknesses in the UK climate change policy as it became apparent that the target of a 20% reduction in carbon emissions by 2010 would be missed Revisions to the projection of emissions had not been done frequently enough so by the time Ministers knew there were problems it was too late to introduce new measures The programme is however likely to be rescued somewhat by Phase II of the EU Emissions Trading Scheme which promises to deliver some real savings The draft Climate Change Bill alongside other developments such as the creation of the Office of Climate Change and requirements of the Climate Change and Sustainable Energy Act 2006 are broadly well designed and a far reaching responses to these issues
