 Wilson-Kennedy,2025-09-16 Creating spaces conducive for all students pursuing degrees in STEM is a constant conversation  
 in higher education Studies establish the need for broad participation in STEM and the barriers in place that prevent  
 matriculation through critical junctures Through these studies several suggestions and recommendations suggest supporting  
 students through advising mentoring and research experience Very little is discussed about the tools and strategies needed  
 to enhance students own development of self efficacy and self identity through mentorship in formal environments like the  
 lab classroom and departments but also in informal STEM environments like bridge programs organizational involvement  
 and mentoring groups While the environments seem very different the mission of dynamic approaches to student progression  
 is apparent Furthermore understanding how the support evolves at each critical juncture is critical to the way in which the
