The Secret Library Oliver Tearle, 2016-09-29 As well as taking in the well-known titles that have helped shape the world in which we live, *The Secret Library* brings to light more neglected items among the bookshelves of the world. Madly after the Muses Alexander Riddiford, 2013-03-14 *Madly after the Muses* examines the use of Graeco-Roman samplings in the Bengali works of Michael Madhusudan Datta, 1824-1873, the nineteenth-century poet and playwright. His oeuvre, which includes a Bengali play dramatizing a Hindu version of the Judgement of Paris, a retelling of the Sanskrit Ramayana using various Vergilian and Homeric tropes, a Hindu response to Ovid's *Heroides* and a Bengali prose version of

the first half of Homer's Iliad utilize the Greek and Roman classics in a surprising and subversive way. Though steeped in contemporary British literary culture, Madhusudan's Bengali works bypassed the literary trends of his British contemporaries and most strikingly used the Western classics to defy the hegemonic elite culture of the Hindu pundits. He treated traditional Hindu material with innovations inspired by the literature of the Graeco-Roman world and provided an Orientalist Indo-European reading of the ancient cultures of India and Europe. By subverting contemporary British constructions of what constituted classical, he also highlighted counter currents within the Western classical discourse. In this volume, Riddiford introduces new texts and contexts to the fields of classical reception and postcolonial scholarship and includes appendices with translated excerpts from Bengali works not previously translated into English. He also examines the Bengali poet's classical education, drawing on new material from various archives to show that he was given a rigorous British style classical education, offering a surprising early chapter in the story of the dissemination and reception of the Graeco-Roman classics in India.

Roman Literary Culture Elaine Fantham, 2013-07-18 This new edition broadens the scope of Fantham's study of literary production and its reception in Rome. Scholars of ancient literature have often focused on the works and lives of major authors rather than on such questions as how these works were produced and who read them. In *Roman Literary Culture*, Elaine Fantham fills that void by examining the changing social and historical context of literary production in ancient Rome and its empire. Fantham's first edition discussed the habits of Roman readers and developments in their means of access to literature, from booksellers and copyists to pirated publications and libraries. She examines the issues of patronage and the utility of literature and shows how the constraints of the physical object itself, the ancient book, influenced the practice of both reading and writing. She also explores the ways in which ancient criticism and critical attitudes reflected cultural assumptions of the time. In this second edition, Fantham expands the scope of her study. In the new first chapter, she examines the beginning of Roman literature more than a century before the critical studies of Cicero and Varro. She discusses broader entertainment culture, which consisted of live performances of comedy and tragedy as well as oral presentations of the epic. A new final chapter looks at Pagan and Christian literature from the third to fifth centuries, showing how this period in Roman literature reflected its foundations in the literary culture of the late republic and Augustan age. This edition also includes a new preface and an updated bibliography.
