Burke,2015-01-29 The writings of Madame Guizot are highly celebrated in France and though something of this celebrity may be due to her position as the wife of an illustrious statesman and historian it must also be remembered that this very position was calculated to draw forth a severer criticism than would usually be passed on one less favourably circumstanced But the works themselves have merits of far too decided an order not to command attention in any case and they especially deserve the notice of English parents from their entire freedom from the exaggeration of sentiment and love of effect so often justly complained of in a certain portion of the Literature of France In her *Tales* it has been the aim of Madame Guizot to secure the attention of her youthful readers by an attractive narrative in which the chief personages are children like themselves and the events and situations such as might occur in their own experience and then to lead their minds to important conclusions by the natural course of the story and without the repulsive

intervention of mere lecturing or argumentation and we think it will be admitted that in the present series she has been eminently successful These Tales are so simple and natural that they may be understood by even younger children than they are actually intended for while at the same time they are so full of good sense and touch so vividly those springs of action which influence alike both the young and the old that many of them will be read with as much interest and sometimes even with as much advantage by the parent as by the child Though perfectly unpretending in structure and language the most fastidious taste will acknowledge them to be the productions of a highly refined and cultivated mind while they equally display all the charms of an affectionate and parental disposition conjoined with a lofty though a gentle and rational morality It is only necessary to observe in conclusion that the Translator has endeavoured to preserve throughout the simplicity of style which distinguishes the original and to convey its meaning with all the fidelity which the difference of the two idioms would permit A few unimportant expressions have been modified or omitted as unsuitable to English taste or likely to convey in translation a different impression from that actually intended but beyond this no liberty has been taken with the text

though often ignored is of the first importance in obtaining a clear understanding of the facts the tendency of the sexual impulse to appear in a spontaneous and to some extent periodic manner affecting women differently from men This is a tendency which later I hope to make still more apparent for it has practical and social as well as psychological implications Here and more especially in the study of those spontaneous solitary manifestations which I call auto erotic I have attempted to clear the ground and to indicate the main lines along which the progress of our knowledge in these fields may best be attained Psychology of Sex Havelock Ellis,1903 **Studies in the psychology of sex. v.3, 1904** Havelock Ellis,1903

Writing the South African San

Lara Atkin,2022-01-01 This book offers an innovative new framework for reading British and settler representations of Indigenous peoples in the nineteenth century Taking the representation of the Southern African San as its case study it uses methodologies drawn from critical anthropology imperial history and literary studies to show the role that literary representations of Indigenous peoples played in popularising the hierarchical view of racial difference The study identifies an ethnographic poetics in which the claims of scientific discourse blend with a consciously literary preference for metaphor and analogy This created a set of mobile figures that could be disseminated to different reading publics in both Britain and the colonies through a variety of literary genres and textual media It advances research on race and imperial history by focusing on the importance of literature from newspapers and periodicals to popular novels in shaping discourses of national and racial belonging in Britain and the Cape Colony
