slaves in ancient Rome or Greece And yet despite the fact that slavery had formally been abolished at the end of the nineteenth century in most countries it still remains an inherent part of modern life In 2023 it still consists of a large group of people For more than 50 million individuals worldwide freedom does not exist People are still being exploited and traded as commodities In the first place this issue concerns people who end up working as slave labour in all economic branches including clothing fishing agriculture construction transport and catering industries This form of slavery has many connections to Western companies and often it actually occurs in Western countries In addition in all European countries the sex industry makes abundant use of so called sex slaves This book will give you a glimpse of what slavery looks like today
