Quick Start Guide

Before you get started.

To ensure you can instantly view your entire cable or satellite lineup through, please use the recommended HDMI and component cable configurations as defined in section 1.

If you are connecting to a standard HDMI network, leave your channel name and password blank before starting the set-up screen setup.

If you are setting up from a PC or Mac*, make sure it meets the minimum system requirements. To get more info on the Slingbox system requirements, please visit www.slingbox.com/system-requirements or visit our support department at www.slingbox.com/support

Write down the brand and model of your cable/satellite (C/S) service. You'll need this information when configuring your Slingbox.

*Your entire cable/satellite service must be in your area. Please keep this in mind for the optimal results. We strongly recommend using an HDMI for the cable signal to help give your Slingbox the best possible image about half every inch on your display screen.
