Gender and Judging Ulrike Schultz,Gisela Shaw,2014-07-18 Does gender make a difference to the way the judiciary works and should work Or is gender blindness a built in prerequisite of judicial objectivity If gender does make a difference how might this be defined These are the key questions posed in this collection of essays by some 30 authors from the following countries Argentina Cambodia Canada England France Germany India Israel Italy Ivory Coast Japan Kenya the Netherlands the Philippines South Africa Switzerland Syria and the United States The contributions draw on various theoretical approaches including gender feminist and sociological theories The book s pressing topicality is underlined by the fact that well into the modern era male opposition to women s admission to and progress within the judicial profession has been largely based on the argument that their very gender programmes women to show empathy partiality and gendered prejudice in short essential qualities running directly counter to the need for judicial objectivity It took until the last century for women to begin to break down such seemingly insurmountable barriers And even now there are a number of countries

where even this first step is still waiting to happen In all of them there remains a more or less pronounced glass ceiling to women s judicial careers

Radiation and the International Space Station National Research Council,Commission on Geosciences, Environment, and Resources,Commission on Physical Sciences, Mathematics, and Applications,Board on Atmospheric Sciences and Climate,Space Studies Board,Committee on Solar-Terrestrial Research,Committee on Solar and Space Physics,2000-03-25 A major objective of the International Space Station is learning how to cope with the inherent risks of human spaceflight how to live and work in space for extended periods The construction of the station itself provides the first opportunity for doing so Prominent among the challenges associated with ISS construction is the large amount of time that astronauts will be spending doing extravehicular activity EVA or space walks EVAs from the space shuttle have been extraordinarily successful most notably the on orbit repair of the Hubble Space Telescope But the number of hours of EVA for ISS construction exceeds that of the Hubble repair mission by orders of magnitude Furthermore the ISS orbit has nearly twice the inclination to Earth s equator as Hubble s orbit so it spends part of every 90 minute circumnavigation at high latitudes where Earth s magnetic field is less effective at shielding impinging radiation This means that astronauts sweeping through these regions will be considerably more vulnerable to dangerous doses of energetic particles from a sudden solar eruption Radiation and the International Space Station estimates that the likelihood of having a potentially dangerous solar event during an EVA is indeed very high This report recommends steps that can be taken immediately and over the next several years to provide adequate warning so that the astronauts can be directed to take protective cover inside the ISS or shuttle The near term

actions include programmatic and operational ways to take advantage of the multiagency assets that currently monitor and forecast space weather and ways to improve the in situ measurements and the predictive power of current models

Intersectionality and Women's Access to Justice in Africa J. Jarpa Dawuni, 2022-10-17 Intersectionality and Women's Access to Justice edited by J Jarpa Dawuni propounds layered intersectionality as a paradigm for examining how gendered factors affect women's access to justice whether as judges or litigants Through intersectional and decolonial frameworks the contributors analyze the lived experiences of women and their access to justice by situating the courtroom as both a spatial and a temporal arena for seeking justice as litigants and for seeking access to the bench as judges This book examines patterns of mutually reinforcing discriminatory practices that women share based on common gender identities and depending on which identities are at play at a given point in time in both traditional and statutory courts The book provides recommendations for various justice sector providers
