

INTRODUCTION

This manual codifies the official policies of the Board of Education and includes the administrative regulations associated with selected policies. School Board policies state positions adopted by the Board in order to provide direction, control and/or management of its legal functions.

The goals of all policy are to present clear, concise, and distinct directives to the Board's staff and to serve as a primary communication tool with the general public with specific attention to students, parents and/or guardians. Regulations state procedures and rules developed by the administration to guide and direct the implementation of Board policy.

Adoption of new policies or revision of existing policies is solely the responsibility of the Board. Proposals for new policies or revisions to current policies may be submitted in writing by any interested citizen, District employee, or member of the Board. Proposals shall be submitted to the Superintendent for referral to the Board.

It is the obligation of employees to familiarize themselves with and follow Board policies. Employees are responsible for familiarizing themselves with and following all administrative regulations.

One should consider two basic points when using this manual: (1) the policies represent official positions of the Board, and (2) federal, state and local statutes drive the legal basis for these policies and regulations. Various other publications such as the *Certificated Personnel Handbook*, *Support Personnel Handbook*, *Behavior Response Plan*, *Policies and Procedures Manual for Special Education in Oklahoma*, *Administrative Handbook for School Activity Funds*, and the *School Laws of Oklahoma* serve as companion documents to this Board Policy Manual and are useful tools for more regulatory detail.

Please note that Board policies are printed on white paper and administrative regulations are printed on blue paper. Regulations are codes with an "R" suffix.

Office of Education,1959 **Ten Assessment Literacy Goals for School Leaders** Stephen Chappuis,Steve
Chappuis,Susan M. Brookhart,Jan Chappuis,2021-04-21 Of all school related factors that influence student learning only
classroom instruction has greater impact than leadership And leaders have the greatest impact when they set direction citing
that the goals and purpose they provide serves to strengthen and solidify the faculty The ten competencies for school leaders
described in this book are based on a few factors First standards driven reform has created new knowledge requirements
and responsibilities for school leaders In today s systems sorting students along a bell curve and artificially creating winners
and losers has been replaced by a mission that all students must learn well Instead of a curriculum focused on what a teacher
should teach the curriculum identifies what students must know and be able to do These standards are public and
communicate what a state or district values when it comes to student learning Assessing the standards day to day not
through large scale accountability tests or even local short cycle or common assessments is a requirement for effective
standards based reform Second is the reward of improved student learning brought about by the use of classroom
assessment for learning Assessment for learning has implications not just for school leaders but also for broader educational
practice The research is conclusive and improved learning lies within the grasp of anyone wishing to apply it What does it
look like when school leaders demonstrate mastery of the Ten Assessment Competencies Included in the book are examples
learning activities and opportunities for practice as well as success indicators for each competency as leaders work toward
