Summers Of Discontent The Purpose Of The Arts Today:

Summers of Discontent Raymond Tallis, Julian Spalding, 2014-09-22 An examination of why artists make art in the first place and why we all feel the need for it **Thinking of Questions** Peter Limm, 2015-09-23 This is not a conventional book It is designed to stimulate and challenge all people who are curious to find out about the world they inhabit and their place within it It does this by suggesting questions and lines of questioning on a wide range of topics The book does not provide answers or model arguments but prompts people to create their own questions and a reading log or journal To this end almost all questions have a list of books or articles to provide a starter for stimulating further reading Once you start you will be hooked Never stop questioning Dimensions of Aesthetic Encounters Robert E. Innis, 2022-04-01 We encounter in our lives things and situations that elicit from us special forms of attention They affect and inform us in various ways drawing us in and holding us in their grasp or turning us away Works of art of all sorts and nature in its myriad manifestations exemplify these luring and repelling qualities and potencies Dimensions of Aesthetic Encounters explores central perceptual interpretative and semiotic dimensions of these encounters combining a wide range of examples and intellectual resources from pragmatist hermeneutical and semiotic frameworks Practicing a kind of method of rotation Robert E Innis breaks down barriers in aesthetic theory and shows their complementary powers Recurring themes link each chapter throwing a powerful light on aesthetic encounters by foregrounding such pivotal notions as play fundedness and the role of memory the defining quality of an artwork energies of objects potencies rhythm form presentational abstraction medium symbolization intuition role of the body and the non argumentative nature of art Consciousness and Transcendence Loomis Mayer, 2023-10-27 A central but rarely explored mystery of human existence and subjective consciousness was recognized by Blaise Pascal several centuries ago Why am I me and not you or anyone else Science can explain why there is objectively a person here but not why that person is subjectively me This relates to the more widely debated mind body problem more currently known as the Hard Problem of Consciousness Moving on to human culture including religion and the arts this book asks whether these are the direct result of Darwinian evolution or rather of the nature of human consciousness Do the mysteries of our consciousness of our existence have a role to play Music as an Art Roger Scruton, 2018-08-23 In the latest of his books exploring a lifetime s passion for music bestselling author and philosopher Roger Scruton brings his immense critical faculties to bear on a panoply of different musical genres both contemporary and classical Music as an Art begins by examining music through a philosophical lens engaging in discussions about tonality music and the moral life music and cognitive science and German idealism as well as recalling the author s struggle to encourage his students to distinguish the qualities of good music Scruton then explains via erudite chapters on Schubert Britten Rameau opera and film how we can develop greater judgement in music recognising both good taste and bad establishing musical values as well as musical pleasures As Scruton argues in this book in earlier times our musical culture had secure foundations in the church the

concert hall and the home in the ceremonies and celebrations of ordinary life religion and manners Yet we no longer live in that world Fewer people now play instruments and music is for many a form of largely solitary enjoyment As he shows in Music as an Art we live at a critical time for classical music and this book is an important contribution to the debate of which we stand in need concerning the place of music in Western civilization
