Horsely,1995 There are many reasons to protect groundwater More than half of the United States relies on it for drinking
water The population of the U S has increased by 20 million in the past 10 years while the amount of groundwater available
for consumption has remained the same One gallon of gasoline can contaminate 1 million gallons of groundwater And the
cost of contamination clean up far exceeds that of a prevention program This report provides the information needed to start
a wellhead protection program It reviews the fundamentals of water hydrology the causes and effects of contamination
wellhead management and protection and financial strategies available to communities interested in starting a program The
report also includes a table of land uses and their potential contaminants a matrix that describes regulatory and
