Discipline Problems Tadashi Dozono,2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn But she s troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in *Discipline Problems* has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she s taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students *Discipline Problems* reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners

difference What if I told you things are not as they appear Black is not black and White is not white and 130 B C is not 130 years before Christ Now turn off the lights and tell me what is white and what is black color is the reflection of light without light there is no color That's what Rome did they turned off the lights on the truth And the way we been taught to record time is not the only way it was done And that an ancient order set claim to the entire Western Hemisphere long before Columbus and possibly achieved it in 130 B C With B C possibly meaning before Columbus before the cycle or before the comet of 1492 becoming 1362 possible in this case B C stood for all three events 130 B C is not as it appears and the claim was not made for a mortal king or country but rather for a Supreme God Under God laws If you like riddles If you like enigmas If you would like to see history recorded and told differently or truer then you may be ready for this challenge If you are then you are ready to look at the clues that was left behind with an open mind If you like astronomy I'll show you how different groups of people each use different galactic events besides the Star of Bethlehem to mark the start of their time and all the different groups calendar are tied together We will be looking at the equivalent of several Stars of Bethlehem from here in the Americas I'll be taking you through a dating wormhole without leaving the planet making you scratch your head laugh and wonder what if he is right This book just maybe the start of the rest of the story If you read through this book the first time you will read it again and again And you will possibly come to the same conclusion So that's how they did that And you will never read things the same way all the time again Including the Book of Mormons with its three different voyages and possible dating enigmas truest account ever written about the Americas Sometimes it's not what is being said that's important it's what not being said that is You will be intrigued so if you are ready to start a journey that will give you a lot to think about then turn to page 1 Unravel the truth *The Buried Spitfires of Burma* Andy Brockman, Tracy Spaight, 2020-06-01 Rumours of buried Spitfires from the Second World War have spread around the world for seventy five years In April 2012 the press reported that the UK had negotiated an agreement with Myanmar for the recovery of twenty crated Spitfires reportedly buried after WW2 Astonishingly the agreement came about through the single minded determination of a farmer David Cundall Armed with a high tech survey showing mysterious shapes under the surface of Yangon International Airport David's expedition is equipped with JCB excavators But instead of Spitfires the team unearths a tale of fake history *The Buried Spitfires of Burma* explores what happened next as David Cundall's dream unravelled over the course of a historical whodunnit that spans seven decades and three continents It follows one of the most bizarre stories since the sensational Hitler Diaries hoax *Liminality and the Modern* Professor Bjørn Thomassen, 2014-08-28 *Liminality and the Modern* offers a comprehensive introduction to this concept discussing its development and laying out a conceptual and experiential framework for thinking about change in terms of liminality Applying this framework to questions surrounding the implosion of non spaces the analysis of major historical periods and the study of political revolution the book also explores its possible uses in social science research and its implications for our understanding of the uncertainty and

Richardson, 2015-05-21 This investigation of the barriers to and opportunities for promoting environmental sustainability in company law provides an in-depth comparative analysis of company law regimes across the world The social norm of shareholder primacy is the greatest barrier preventing progress and it also helps explain why voluntary action by companies and investors is insufficient By deconstructing the myth that shareholder primacy has a legal basis and challenging the economic postulates on which mainstream corporate governance debate is based *Company Law and Sustainability* reveals a surprisingly large unexplored potential within current company law regimes for companies to reorient themselves towards sustainability It also suggests possible methods of reforming the existing legal infrastructure for companies and provides an important contribution to the broader debate on how to achieve sustainability **Turning Points in the History of American Evangelicalism** Heath W.
