The conference was fortunate to have three prominent keynote speakers Ole Lehrmann Madsen Aarhus University Denmark Edward A Lee UC Berkeley USA and Pamela Zave AT T Laboratories USA. To provide a broader forum for reporting on scientific progress as well as on experience stemming from practical applications of model based methods the 2010 conference accepted submissions in two distinct tracks Foundations and Applications. The primary objective of the first track is to present new research results dedicated to advancing the state of the art of the discipline whereas the second aims to provide a realistic and verifiable picture of the current state the practice of model based engineering so that the broader community could be better informed of the capabilities and successes of this relatively young discipline.
