Use Of Weapons:

Use of Weapons Iain M. Banks, 2008-12-22 The man known as Cheradenine Zakalwe was one of Special Circumstances' foremost agents changing the destiny of planets to suit the Culture through intrigue, dirty tricks and military action. The woman known as Diziet Sma had plucked him from obscurity and pushed him towards his present eminence, but despite all their dealings she did not know him as well as she thought. The drone known as Skaaffen Amtiskaw knew both of these people. It had once saved the woman's life by massacring her attackers in a particularly bloody manner. It believed the man to be a lost cause. But not even its machine could see the horrors in his past. Ferociously intelligent, both witty and horrific, *Use of Weapons* is a masterpiece of science fiction. The Culture Series. Consider Phlebas. The Player of Games. *Use of Weapons*. The State of the Art. Excession. Inversions. Look to Windward. Matter Surface Detail. The Hydrogen Sonata. **Weapons Under International Human Rights Law** Stuart Casey-Maslen, 2014-01-23 This book focuses on how human rights would regulate non-lethal weapons through the growing interplay between humanitarian law and human rights law. **Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office, 2004. **Nuclear Weapons and International Law** Charles J. Moxley, 2024-05-15 This book analyzes the facts and law as to nuclear weapons and the policy of deterrence. It demonstrates that such weapons cannot lawfully be used and that the policy of deterrence is risky and unlawful. It urges that the U.S. take the lead in delegitimizing these weapons and seeking abolition. **The Law of Arms Control** Guido den Dekker, 2001-05-01 This book is about the role of international law in the arms control process. It discusses the law of arms control as a special branch of international law and covers the following topics: the place of the law of arms control in the system of international law and politics; special characteristics of arms control law; the international legal framework of supervision in the law of arms control; general features of supervisory mechanisms in all multilateral arms control treaties currently in force; case studies on the CWC, IAEA safeguards system and CTBT; and enforcement of the law of arms control. As such, this study provides a comprehensive theory and model for the analysis of supervisory mechanisms in arms control treaties and offers an in-depth overview of the law of arms control as it stands in the post-Cold War situation. The book will be of interest to international lawyers as well as political scientists and policy makers. **Library of Congress Subject Headings** Library of Congress, Library of Congress. Office for Subject Cataloging Policy, 2011. **Death Threats and Violence** Stephen J. Morewitz, 2008-11-05 Until recent decades there was little emphasis on studying death threats as a social or psychological phenomenon. However, since the 1960s, attacks on public officials and celebrities and the ubiquitous nature of homicidal threats in face-to-face relations have spawned research and new organizational responses to death threats and related behaviors such as stalking. Publicized workplace-related death threats and shootings such as the 21 separate incidents since 1986 in which U.S. Postal Service employees were shot and the death threats and attacks directed at schools and universities have helped to transform death threats from a private phenomenon into a social problem. Political leaders

have developed new policies organizational structures and laws in an attempt to prevent death threats and related violence Moreover in the aftermath of 9 11 the U S government and other governments around the world have formulated new policies and organizational structures to deal with the threat of terrorist attacks At the level of interpersonal relations the weakening of social control processes allows individuals to make homicidal threats against people and organizations in different settings This book will address such questions as Under what conditions are individuals able to evade social control by making death threats What factors trigger the response of social control mechanisms to death threat makers How effective are the institutional responses to death threats At the macrolevel this book assesses how governments and paramilitary and terrorist groups also employ death threats to achieve their desired social and political objectives

Readings in the Philosophy of Law Keith Culver,1999-12-07 **Commentary on the Third Geneva Convention**,2021-09-09 The application and interpretation of the four Geneva Conventions of 1949 and their two Additional Protocols of 1977 have developed significantly in the seventy years since the International Committee of the Red Cross ICRC first published its Commentaries on these important humanitarian treaties To promote a better understanding of and respect for this body of law the ICRC commissioned a comprehensive update of its original Commentaries of which this is the third volume The Third Convention relative to the treatment of prisoners of war and their protections takes into account developments in the law and practice in the past seven decades to provide up to date interpretations of the Convention The new Commentary has been reviewed by humanitarian law practitioners and academics from around the world This new Commentary will be an essential tool for anyone involved with international humanitarian law *Jurisdiction of Specific International Tribunals* C. Ranjan Felix Amerasinghe,2008-12-23 This volume examines the jurisdiction both contentious and advisory of the ICJ as a specific permanent international court or tribunal but also brings together in one book the examination of the jurisdiction of certain other tribunals not excluding most of the other four tribunals or groups of tribunals examined in *Jurisdiction of International Tribunals* by the same author Material relating to them is expanded re examined and brought up to date Hence This volume covers the jurisdiction of i the World Court i e the ICJ and PCIJ both contentious and advisory jurisdiction ii the leading International Administrative Tribunals iii the ECHR iv ICSID tribunals v the WTO Panels and Appellate Body and vi the ITLOS The six systems for the judicial settlement of disputes chosen to be examined in this work are by far the most important in the modern era and deserve close attention *International Humanitarian Law* Nicholas Tsagourias,Alasdair Morrison,2023-09-07 By drawing together key documents case law reports and other materials on international humanitarian law from diverse sources the book presents in a systematic and analytically coherent manner this body of law and to offer students teachers and practitioners an easily accessible targeted but also critically informed account of the relevant rules and of how they apply in practice It covers all areas of international humanitarian law and specifically addresses issues of contemporary interest such as cyber warfare targeting occupation detention human rights in

armed conflict peacekeeping neutrality responsibility and accountability enforcement reparations The book is ideal for instruction research reference and application purposes either as a standalone resource or as accompaniment to textbooks and more specialist references Casenote Legal Briefs for International Law, Keyed to ... , *Freedom from Nuclear Weapons Through Legal Accountability and Good Faith* George Farebrother,2007 Most people want to live in a world free from the threat of nuclear weapons and many believe that any country which could even think of using them corrupts its own values This hope has the backing of law It is scarcely possible to imagine how nuclear weapons could ever be used lawfully and there is a solemn treaty to negotiate in Good Faith for their global abolition However a few states claim that their security depends on nuclear weapons Thousands of these weapons of mass destruction are still ready to be launched at a moment's notice In July 2006 legal experts and civil society representatives met in Brussels to examine the legality of nuclear weapons in depth They developed proposals for action by citizens to uphold the law calling on diplomats and politicians to honour their Good Faith obligations This book records their conclusions and outlines a way forward BOOK JACKET **A Social Theory of International Law** Kazuko Hirose,2003-01-01 There has long been an advocacy for the sociology of international law and yet it has never been constructed so systematically and axiomatically as in this book Based on vital terms such as action and system this book has conducted an investigation into the auspices or the fundamental international sociological conditions over which international law is built and accordingly into how international law can control global relations The significance of this work lies in its aim of showing by the application of a consistent logic how complex observed phenomena can be explained and understood on the basis of certain shared fundamental perceptions drawn from common experience By asking how a state acts in a complex system that consists of at least two subsystems having different goals and different logics two specific issues are discussed 1 The relationship between domestic and international law namely that between Article 9 of the Constitution of Japan and the UN Charter especially the provisions for a collective security system as mentioned in chapter VII 2 The relationship between international law and international politics namely the relationship between the prohibition of the use of nuclear weapons and the logic of nuclear deterrence *National Criminal Justice Thesaurus* ,1993 **The Treatment of Prisoners under International Law** Nigel Rodley,Matt Pollard,2009-08-13 This is the third edition of the pioneering work that has become the standard text in the field The first edition was one of the earliest to establish that the newly developing international law of human rights could be set down as any other branch of international law It also incorporates the complementary fields of international humanitarian law and international criminal law while addressing the problems associated with their interaction with human rights law The book is more than a descriptive analysis of the field It acknowledges areas of unclarity or where developments may be embryonic Solutions are offered Recent developments have confirmed the value of solutions proposed in this edition and the previous one Central to most of the chapters is the human rights norm of most salience in the treatment of prisoners namely the prohibition of

torture and cruel inhuman or degrading treatment or punishment The early chapters focus on the period of first detention when detainees are most at risk of having information or confessions however unreliable extracted by unlawful means Voices contemplating the legitimacy of such treatment to combat terrorism have been heard in the wake of the atrocities of 11 September 2001 The book finds that the evidence clearly suggests that the absolute prohibition of such treatment remains firm Other chapters deal with problems of poor prison conditions and of certain extraordinary penalties notably corporal and capital punishment A chapter explores ethical codes for members of professions capable of inflicting or preventing the prohibited behaviour police and medical and legal professionals Chapters are also devoted to the extreme practice of enforced disappearance and the contribution of the new convention on this phenomenon as well as to extra legal executions

The Future of Non-lethal Weapons Nick Lewer, 2017-09-29 These essays explore the increase in interest in non lethal weapons Such devices have meant that many armed forces and law enforcement agencies are able to act against undesirables without being accused of acting in an inhumane way Topics for discussion in this volume include an overview of the future of non lethal weapons emerging non lethal technologies military and police operational deployment of non lethal weapons a scientific evaluation of the effectiveness of non lethal weapons changes in international law needed to take into account non lethal technologies developments in genomics leading to new chemical incapacitants implications for arms control and proliferation the role of non lethal weapons in human rights abuses conceptual theoretical and analytical perspectives on the nature of non lethal weapons development Bulletin of the Atomic Scientists , 1996-09 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world

Political Realism And International Morality Kenneth Kipnis, Diana T Meyers, 2019-06-26 It is always appropriate to ask whether an expedient foreign policy is morally justifiable just as it is always appropriate to ask whether a morally defensible policy is consistent with the national interest The ongoing dialogue between morality and realpolitik gives much of foreign policy debate its characteristic bite In this collection of essays a distinguished group of philosophers political theorists and lawyers including Russell Hardin and Marshall Cohen explore these contrasting themes In essays that are at once insightful and accessible noted political thinkers examine the tension of the conflicting demands of morality and national self interest in the context of the foundations of international order the possession and use of nuclear weapons recourse to war and the prospects for peace A final postscript addresses the question of the responsibility of intellectuals in the national foreign policy debate This book will appeal to scholars and students in any discipline dealing with international affairs as well as to lay readers who wish to explore the implications of taking morality and reason seriously in foreign policy
