

targets are elicited through picture naming and sentence repetition tasks. Data can be collected at both the word and sentence levels. Examiner responses are recorded and compared to a normative sample used to state normative data. The (CELA₂) has a mean of 100 and a standard deviation of 15. Standard scores that fall between 85 and 115 are considered average as they compare to the test's normative sample.

STUDENT 2 Scores: GPPA-2

Subtest	Raw Score	Standard Score	95% Confidence Interval	Percentile Rank
Sounds in Words				
Sounds in Sentences				

Performance Analysis: GPPA-2

STUDENT's articulation skills were formally assessed using the CELF₂. Assessment targets in the initial, middle and final positions of the word were elicited in single-word utterances and in sentences. To collect data in single-word utterances, **STUDENT** was presented with 48 colored pictures and was asked to name them spontaneously. During this task, **teacher** exhibited **X** speech errors and obtained a standard score of **X**. To collect data at the sentence level, **STUDENT** participated in sentence repetition tasks. During sentence repetition tasks **teacher** exhibited **X** speech errors and obtained a standard score of **X**.

Below is a table representative of the single word errors **STUDENT** exhibited during administration of the Sounds in Words subtest. The table also indicates the state's designated age at sound acquisition.

Error Type	Initial Position	Middle Position	Final Position	Designated Age at Acquisition (Years; Months)
Substitution				
Omission	Decrease Font Size			
Distortion				
Addition				

STUDENT's single word errors consisted of substitutions/omissions/distortions/additions. **Teacher** single word errors were compared to the state of Missouri's normative data for sound acquisition. The state of Missouri's normative data for sound acquisition suggests that the **X** phonemes are typically acquired by **X** years of age. **STUDENT**'s word production of these phonemes was not considered developmentally appropriate at **teacher** chronological age level of **X** years, **X** months. The evaluating speech-language pathologist determined that **STUDENT**'s errors are not the result of dialectal differences or second language influence.

REAL-LIFE BEHAVIORAL ANALYSIS – THREE FACTOR CELF₂

The CELF₂ is a norm-referenced analysis of an individual's speech development and phonological process usage. It is designed for use with individuals between the ages of two and 21 years. The analysis is used to identify frequency of usage of twelve Core Phonological Processes grouped into four types (insertions, place, reduction, and voicing) and thirteen Supplemental and other processes used by the individual. The CELF₂ requires the administration of the Sounds in Words subtest of the Goldsmith-Friesen Test of Articulation – Third Edition (GFTA₂). The target words of the (GFTA₂) are analyzed for sound changes and the sound changes are classified by phonological process(es). The total number of phonological

Stuttering Ehud Yairi, Carol H. Seery, Cara M. Singer, 2025-08-06 Stuttering Foundations and Clinical Applications Fourth Edition presents a comprehensive overview of the science and treatment of stuttering intended for both undergraduate and graduate level courses. It is the only text that incorporates general information on the nature of stuttering e.g. incidence and development, a review of its theoretical and research perspectives, and a substantial clinical how-to guide for evaluating and managing the disorder at different ages. It guides students to critically appraise different viewpoints about the nature of stuttering, understand the disorder's complexities, and learn about the major clinical approaches and therapies appropriate for different age groups. This evidence-based textbook is divided into three distinct sections. Part I: Nature of Stuttering offers descriptive information about stuttering, including its demographics and developmental pathways. Part II explores the various explanations of stuttering, giving students an understanding of why people stutter. Part III focuses on clinical management, delving into the assessment of both adults and children, as well as various age-appropriate intervention approaches. In the final chapter, the authors explore other fluency disorders, as well as cultural and bilingual issues. New to the Fourth Edition: A new third author, Cara M. Singer, PhD, CCC-SLP, brings a fresh perspective. Reduced text where possible, enhancing reading and freeing space for new information. Chapter reorganization in some sections. An additional assessment-related chapter: Integration of updated research. Updated and expanded clinical approaches. 100 new recent references. Key Features: Each chapter begins with a list of learner objectives to frame the chapter before new material is presented. Boxes throughout the text, and bolded words are used to highlight important points. End-of-chapter summaries and study questions allow readers to review and test their understanding. Infused with suggested further readings and websites. Included visuals: tables, diagrams, photos, and drawings help clarify and expand on key concepts. Numerous case studies and testimonies from parents in the text. Please note: Ancillary material such as forms and documents are not included, as in the original print version of this book.

The Secondary SLP Roadmap Hallie Sherman, 2025-11-11 Essential guide for Grade 4-12 SLPs to reduce prep work and help students crush their goals. The Secondary SLP Roadmap: Motivating Students to Crush their Speech and Language Goals is a unique resource for speech language pathologists working with secondary students who are often harder to motivate and more aware that learning is difficult for them. Based on author Hallie Sherman's 16 years of SLP experience and her extensive professional development training career, this book is filled with stories and practical ideas, tips, and tricks that you can use right away to help students learn more effectively while bringing prep work down to one hour each week. Broken down into three phases to allow for modular learning, this book shows readers how to target a variety of goals without spreading resources too thin. Work with mixed groups in a way that all students get the attention and assistance they need. Teach skills differently than how they are already being addressed in the classroom. Build rapport and a safe environment in which students feel comfortable taking risks. The Secondary SLP Roadmap provides readers with an essential framework to go from being uncertain and overwhelmed to having their speech students crushing their goals and
