Barbera s problematic record of racial and gender representation **Border Security** Peter Chambers,2017-09-27 What kind of a world is one in which border security is understood as necessary How is this transforming the shores of politics And why does this seem to preclude a horizon of political justice for those affected Border Security responds to these questions through an interdisciplinary exploration of border security politics and justice Drawing empirically on the now notorious case of Australia the book pursues a range of theoretical perspectives including Foucault s work on power the systems theory of Niklas Luhmann and the cybernetic ethics of Heinz Von Foerster in order to formulate an account of the thoroughly constructed and political nature of border security Through this detailed and critical engagement the book s analysis elicits a political alternative to border security from within its own logic thus signaling at least the beginnings of a way out of the cost cruelty and devaluation of life that characterises the enforced reality of the world of border security **Spirituality in Young Adult Literature** Patty Campbell,2015-06-24 In a time when almost any gritty topic can be featured in a young adult novel there is one subject that is avoided by writers and publishers Faith and belief in God seldom appear in traditional form in novels for teens The lack of such ideas in mainstream adolescent literature can be interpreted by teens to mean that these matters are not important Yet a significant part of growing up is struggling with issues of spirituality The underlying problem of course is that there are so few writers who are willing to talk to teenagers about God even indirectly or who themselves have the religious literacy for the task Spirituality in Young Adult Literature The Last Taboo tackles a subject rarely portrayed in fiction aimed at teens In this volume Patty Campbell examines not only realistic fiction but young adult literature that deals with mysticism apocalyptic end times and even YA novels that depict the Divine Encounter Campbell maintains that fantasy works are inherently spiritual because the plots nearly always progress toward a showdown between good and evil As such the author surmises that the popularity of fantasy among teens may represent their interest in the mystical dimensions of faith and the otherworldly In this study Campbell examines works of fiction that express perspectives from Christianity Judaism Islam Buddhism Hinduism and Sikhism Distinguished YA novelist Chris Crowe provides a chapter on Mormon values and Mormon YA authors and how their novels integrate those values into their books By looking at how spirituality is represented in novels aimed at teens this book asks what progress if any has been made in slaying the taboo Although most of the books discussed in this study are recent an appendix lists YA books from 1967 to the present that have dealt with issues of faith A timely look at an important subject Spirituality in Young Adult Literature will be of interest to young adult librarians junior and senior high school teachers and students and instructors of college courses in adolescent literature as well as to parents of teens **Music City Melbourne** Shane Homan,Seamus O'Hanlon,Catherine Strong,John Tebbutt,2021-12-02 How did Melbourne earn its place as one of the world s music cities Beginning with the arrival of rock n roll in the 1950s this book explores the development of different sectors of Melbourne s popular music ecosystem in parallel with broader population urban planning and media industry changes in the city The authors draw on interviews with

Melbourne musicians venue owners and policy makers documenting their ambitions and experiences across different periods with accompanying spotlights on the gendered multicultural and indigenous contexts of playing and recording in Melbourne Focusing on pop and rock this is the first book to provide an extensive historical lens of popular music within an urban cultural economy that in turn investigates the contemporary nature and challenges of urban music activities and policy

Eurovision and Australia Chris Hay, Jessica Carniel, 2019-07-25 This book investigates Australia's relationship with the Eurovision Song Contest over time and place from its first screening on SBS in 1983 to Australia's inaugural national selection in 2019 Beginning with an overview of Australia's Eurovision history the contributions explore the contest's role in Australian political participation and international relations its significance for Australia's diverse communities including migrants and the LGBTQIA community racialised and gendered representations of Australianness changing ideas of liveness in watching the event and a reflection on teaching Australia's first undergraduate course dedicated to the Eurovision Song Contest The collection brings together a group of scholar fans from a variety of interdisciplinary perspectives including history politics cultural studies performance studies and musicology to explore Australia's transition from observer to participant in the first thirty six years of its love affair with the Eurovision Song Contest

Transnational Television Remakes Claire Perkins, Constantine Verevis, 2018-02-02 Providing a cross cultural investigation of the current phenomenon of transnational television remakes and assembling an international team of scholars this book draws upon ideas from transnational media and cultural studies to offer an understanding of global cultural borrowings and format translation While recognising the commercial logic of global television formats that animates these remakes the collection describes the traffic in transnational television remakes not as a one way process of cultural homogenisation but rather as an interstitial process through which cultures borrow from and interact with one another More specifically the chapters attend to recent debates around the transnational flows of local and global media cultures to focus on questions in the televisual realm where issues of serialisation and distribution are prevalent What happens when a series is remade from one national television system to another How is cultural translation handled across series and seasons of differing length and scope What are the narrative and dramaturgical proximities and differences between local and other versions How does the ready availability of original foreign series shape an audience's reception of a local remake How does the rhetoric of Quality TV impact on how these remakes are understood and valued In answering these and other questions this volume at once acknowledges both the historical antecedents to transnational trade in broadcast culture and the global explosion in and cultural significance of transnational television remakes since the beginning of the twenty first century This book was originally published as a special issue of *Continuum*

Burma, Kipling and Western Music Andrew Selth, 2016-11-03 For decades scholars have been trying to answer the question how was colonial Burma perceived in and by the Western world and how did people in countries like the United Kingdom and United States form their views This book explores how Western perceptions of Burma

were influenced by the popular music of the day From the First Anglo Burmese War of 1824-6 until Burma regained its independence in 1948 more than 180 musical works with Burma related themes were written in English speaking countries in addition to the many hymns composed in and about Burma by Christian missionaries Servicemen posted to Burma added to the lexicon with marches and ditties and after 1913 most movies about Burma had their own distinctive scores Taking Rudyard Kipling's 1890 ballad Mandalay as a critical turning point this book surveys all these works with emphasis on popular songs and show tunes also looking at classical works ballet scores hymns soldiers songs sea shanties and film soundtracks It examines how they influenced Western perceptions of Burma and in turn reflected those views back to Western audiences The book sheds new light not only on the West's historical relationship with Burma and the colonial music scene but also Burma's place in the development of popular music and the rise of the global music industry In doing so it makes an original contribution to the fields of musicology and Asian Studies
