Tiling is the definitive guide to obtaining successful results in pitched roofing construction using clay or concrete tiles. It was written by a team of experts from the Roof Tile Association RTA and the National Federation of Roofing Contractors NFRC, the representative trade associations for pitched roofing. This book is in line with British and European Standards, the latest best site practices and industry recommendations to ensure readers are receiving the most up to date and accurate information available in the field. Based on actual teaching practice, this book is highly illustrated throughout to increase the accessibility of the text for the reader in their exploration of the practical aspects of roofing. It also includes an extensive glossary of roofing terms for ease of reference. It brings together a comprehensive collection of the design material, specifications and workmanship requirements to construct a successful tiled pitched roof, including up to date design, product and workmanship standards, current best site practice, advances in health and safety, current typical scope of works for a roofing contractor, broad knowledge of the overall building envelope performance, specifically the increasing insulation and airtightness requirements. Students following diploma, Foundation, Intermediate and Advanced levels and apprenticeship routes will find this book to be an invaluable reference source of information that will accompany them throughout their studies. Building professionals concerned with the design, detailing and specification of roofing will also find this book to be an essential reference.
