Time S Potential Power Parables 127:

The Power of Parables ,2023-11-07 The Power of Parables documents the surprising ways in which Jewish and Christian parables bridge religion with daily life This 2019 conference volume rediscovers the original power of parables to shock and affect their audience which has since been reduced by centuries of preaching and repetition Not only do parables enhance the perspective on Scripture or the kingdom of heaven they also change the sensory regime of the audience in perceiving the outer world The theological differences in their applications appear secondary in view of their powerful rhetoric and suggest a shared genre **2010Boston: The Changing Contours of World Mission and Christianity** Todd M. Johnson,Rodney L. Petersen,Gina Bellofatto,Travis Myers,2012-01-09 In November 2010 three hundred faculty students and others interested in Christian mission gathered in Boston to consider how the world the global church and Christian missions have changed since the World Missionary Conference in Edinburgh in 1910 and to reflect on the three previous centennial conferences Tokyo 2010 in May Edinburgh 2010 in June and Cape Town 2010 in October Participants at 2010Boston were not delegates from churches and mission agencies but were students and scholars of various aspects of world Christianity representing the Anglican Episcopal Evangelical mainline Protestant Orthodox and Roman Catholic traditions This conference volume consists of nine keynote messages five student presentations three reports from the other conferences and additional materials from or about 2010Boston The keynote messages address the history of mission especially in and from Boston and the current global context for mission and suggest modes for future Christian engagement with the world and one another Student papers address such conference themes as unity in mission mission and postcolonialism and discipleship in context The closing chapter surveys the conference s eight themes and summarizes the outcomes of the 2010Boston process March's Thesaurus Dictionary Francis Andrew March,1930 The Encyclopaedia Britannica Thomas Spencer Baynes,1878 *The Personality of Power* Brian Massumi,2025-02-28 I am the Chosen One With this exclamation Donald Trump crowns the national exceptionalism his base upholds with a claim of personal exceptionalism He leaves no doubt as to the emotional note I am your vengeance He personifies reaction for the masses Except in today s microsegmented social media environment the masses no longer exist Fascism s cultural conditions have shifted In *The Personality of Power* Brian Massumi retheorizes the conditions of contemporary fascism through the prism of Trump s persona Older theories based on identification of the masses with a charismatic leader no longer hold Rather an affective regime of reaction agitates bodies and orients lives at the molecular level Massumi examines this agitation in relation to race gender personhood and conspiracy thinking *The Personality of Power* is a political treatise on fascism and its precursor movements coupled with a philosophical inquiry into becoming reactionary as a collective process Massumi calls the very concept of the person into question asking what collective personhood means concretely Nothing less than an alternative political logic is needed turned to the task of thinking collective individuation **The Encyclopaedia Britannica** ,1883

Encyclopaedia Britannica, 1891 *The Platonic Political Art* John R. Wallach, 2015-12-16 In this first comprehensive treatment of Plato's political thought in a long time John Wallach offers a critical historicist interpretation of Plato Wallach shows how Plato's theory while a radical critique of the conventional ethical and political practice of his own era can be seen as having the potential for contributing to democratic discourse about ethics and politics today The author argues that Plato articulates and solves his Socratic Problem in his various dialogues in different but potentially complementary ways The book effectively extracts Plato from the straightjacket of Platonism and from the interpretive perspectives of the past fifty years principally those of Karl Popper Leo Strauss Hannah Arendt M I Finley Jacques Derrida and Gregory Vlastos The author's distinctive approach for understanding Plato and he argues for the history of political theory in general can inform contemporary theorizing about democracy opening pathways for criticizing democracy on behalf of virtue justice and democracy itself **The Encyclopedia Britannica** Thomas Spencer Baynes, 1883 **The Power of the Second Question**

Chris Skellett, 2015-03-17 Have you ever heard a line in a song that took your breath away Or been reduced to tears by a deeply significant phrase in a movie Have you ever heard a simple truth that resonates perfectly with you In *The Power of the Second Question* psychologist Chris Skellett reveals how you can learn to harness the power of personal reflection to capture your simple truths about the world You will be encouraged to lift yourself up from the routines of everyday thinking and take time to consider what life is all about for you Each concise chapter suggests ideas gives examples and reviews the importance of personal insight You are then invited to reflect upon your own wisdom in key areas of your life and to consolidate what you have learned from life so far At the end of the process you will have developed a much broader appreciation of who you are and what you have learned along life's journey **Problems and Parables of Law** Josef

Stern, 2012-02-01 A central topic in medieval Jewish philosophy and thought was the explanation of the Mosaic commandments From Philo and Saadia on thinkers sought to uncover reasons for the commandments *ta amei ha mitzvot* both to demonstrate the rationality of divine legislation and to motivate performance of the commandments Like many received topics this enterprise was radically transformed in the hands of Maimonides In this first book length treatment of a subject that has been relatively overlooked by scholars since Isaac Heinemann's classic work in the 1950s Josef Stern offers an original analysis of two major themes in Maimonides' explanation of the Law and its impact on Nahmanides The first theme is Maimonides' reconceptualization of the *huqqim* those commandments that were traditionally asserted either to have no reason or a reason that is unknown or unknowable The second theme is Maimonides' application of his method of multi-leveled interpretation that treats texts as parables with external and internal meaning to the explanation of commandments with multiple reasons Both of these innovative modes of explanation are adopted by Nahmanides who refined and adapted Maimonides' structures of interpretation to express diametrically opposed contents From this perspective there emerges a picture of the relation between these two seminal figures of medieval Judaism that is much more subtle than the received

opinion that bluntly opposes them the radical arch rationalist against the mystical traditionalist Inquiry into ta amei ha mitzvot served as a locus for discussion of a broad range of philosophical topics the attributes of God the grounds of law and legal obligation the structure of explanation and interpretation idolatry friendship and love the status of astrology and magic and attitudes toward the body Stern demonstrates both the philosophical importance of these topics in Maimonides and Nahmanides thought and the relevance of their writings to contemporary philosophical discussions *Main Currents in Modern Thought* ,1971 **The Encyclopædia Britannica** Thomas Spencer Baynes,1883 **The Encyclopædia Britannica** ,1893 *A Reference Grammar of Japanese* Samuel Elmo Martin,2004-01-01 This title explains the use of Japanese words such as wa ga and mo looking at the rules and meanings of words in their literary forms Effective Data Storytelling Brent Dykes,2019-12-10 Master the art and science of data storytelling with frameworks and techniques to help you craft compelling stories with data The ability to effectively communicate with data is no longer a luxury in today s economy it is a necessity Transforming data into visual communication is only one part of the picture It is equally important to engage your audience with a narrative to tell a story with the numbers Effective Data Storytelling will teach you the essential skills necessary to communicate your insights through persuasive and memorable data stories Narratives are more powerful than raw statistics more enduring than pretty charts When done correctly data stories can influence decisions and drive change Most other books focus only on data visualization while neglecting the powerful narrative and psychological aspects of telling stories with data Author Brent Dykes shows you how to take the three central elements of data storytelling data narrative and visuals and combine them for maximum effectiveness Taking a comprehensive look at all the elements of data storytelling this unique book will enable you to Transform your insights and data visualizations into appealing impactful data stories Learn the fundamental elements of a data story and key audience drivers Understand the differences between how the brain processes facts and narrative Structure your findings as a data narrative using a four step storyboarding process Incorporate the seven essential principles of better visual storytelling into your work Avoid common data storytelling mistakes by learning from historical and modern examples Effective Data Storytelling How to Drive Change with Data Narrative and Visuals is a must have resource for anyone who communicates regularly with data including business professionals analysts marketers salespeople financial managers and educators **Men** ,1896 *The New Heroines* Kathryn Wright,2016-03-21 This book explores how the next generation of teen and young adult heroines in popular culture are creating a new feminist ideal for the 21st century Representations of a teenage girl who is unique or special occur again and again in coming of age stories It s an irresistible concept the heroine who seems just like every other but under the surface she has the potential to change the world This book examines the cultural significance of teen and young adult female characters the New Heroines in popular culture The book addresses a wide range of examples primarily from the past two decades with several chapters focusing on a specific heroic figure in popular culture In addition the author offers a
