Teaching Literature in Times of Crisis Sofia Ahlberg, 2021-06-13 *Teaching Literature in Times of Crisis* looks at the range of different crises currently affecting students from climate change and systemic racism to the global pandemic Addressing the impact on students ability and motivation to learn as well as their emotional wellbeing this volume guides teachers toward strategies for introducing both canonical and contemporary literature in ways that demonstrate the future relevance of sophisticated and targeted literacy skills These reading practices are invaluable for framing and critically examining the challenges associated with crisis in order to help cope with grief and as a means to impart the skills needed to deal with crisis such as adaptability flexibility resilience and resistance Providing necessary background theory alongside practical case studies the book addresses Reading practices for demonstrating how literature explores ethical issues in specific and concrete rather than abstract terms Making connections between disparate phenomena and how literature mobilises affect in individual and collective human lives Supporting teachers in considering new imaginative ways students can learn from literary content and form in online or remote learning environments as well as face to face Combining close and distant reading with creative and hands on strategies presenting the principles of a transitional pedagogy for a world in flux This book introduces teachers to methods for reading and studying literature with the aim of strengthening and promoting resilience and resourcefulness in and out of the literature classroom and empower students as global citizens with local roles to play Main Currents in Modern Thought ,1971

Embedded Computer Systems: Architectures, Modeling, and Simulation Cristina Silvano, Christian Pilato, Marc Reichenbach, 2023-11-06 This book constitutes the proceedings of the 22st International Conference on Embedded Computer Systems Architectures Modeling and Simulation SAMOS 2021 which took place in July 2022 in Samos Greece The 11 full papers and 7 short papers presented in this volume were carefully reviewed and selected from 45 submissions The conference covers a wide range of embedded systems design aspects including machine learning accelerators and power management and programmable dataflow systems *Transport Processes in Plasmas with Strong Coulomb Interactions* G.A. Pavlov, 2000-07-06 The first part of this monograph presents theoretical analysis of the thermophysical properties of strongly coupled coulomb systems A new model is then developed making it possible to calculate the full set of low temperature multicomponent nonideal plasma transport coefficients based on the kinetic coefficients of strongly coupled coulomb sys *Ionic Liquids* Douglas Inman, David G. Lovering, 2013-11-22 As Chairmen of the Electrochemistry and Molten Salts Discussion Groups of the Chemical Society it gave us great pleasure to welcome the conference Highly Concentrated Aqueous Solutions and Molten Salts which our Groups cosponsored at St John's College Oxford in July 1978 During the meeting the editors of the present volume and those giving lectures came to the conclusion that the verbal presentations deserved to be expanded and to be more widely disseminated in a permanent form Thus the articles which appear in this volume were commissioned and prepared A greater exchange of information between

aqueous chemists and those concerned with molten salts is to be welcomed and to this end the present volume aims to focus attention on the borderline areas between the two in an attempt to facilitate a wider awareness of the concepts and methods appropriate to the respective specialities Similarly and particularly in the electrochemical field a greater exchange of information between the academic and industrial practitioners of the subject is desirable The problems involved are not trivial but when the interactions in these largely but not wholly ionic liquids are better understood this will surely be to the benefit of all concerned with solution chemistry Douglas Inman Imperial College Chairman Electrochemistry Group David Kerridge University of Southampton Chairman Molten Salts Discussion Group v Preface A number of recent events led to the appearance of this text at this particular time **The Electricity Competition and Reliability Act** United States.

understanding Khalil Semaan **The Annalist** ,1925 **The Gospel of Tatian** Matthew R. Crawford,Nicholas J. Zola,2019-07-11 This volume combines some of the leading voices on the composition and collection of early Christian gospels in order to analyze Tatian's Diatessaron The rapid rise and sudden suppression of the Diatessaron has raised numerous questions about the nature and intent of this second century composition It has been claimed as both a vindication of the fourfold gospel's early canonical status and as an argument for the canon's ongoing fluidity it has been touted as both a premiere witness to the earliest recoverable gospel text and as an early corrupting influence on that text Collectively these essays provide the greatest advance in Diatessaronic scholarship in a quarter of a century The contributors explore numerous questions did Tatian intend to supplement or supplant the fourfold gospel How many were his sources and how free was he with their text How do we identify a Diatessaronic witness Is it legitimate to use Tatian's Diatessaron as a source in New Testament textual criticism Is a reconstruction of the Diatessaron still possible These queries in turn contribute to the question of what the Diatessaron signifies with respect to the broader context of gospel writing and what this can tell us about how the writing rewriting and reception of gospel material functioned in the first and second centuries and beyond

Transnational Yoga at Work Laura E. Klepinger,2022-07-18 *Transnational Yoga at Work* Spiritual Tourism and Its Blind Spots is an ethnography about local waged workers in the Indian branches of a transnational yoga institution and about yoga practitioners and spiritual tourists who visualize peace through yoga Practitioners' aspirations for peace situate them at the heart of an international movement that has captured the imagination of cosmopolitans the world over with its purported benefits to mind body and spirit Yoga is thought to offer health vitality and relief from depression through control of body and breath Yet the vision of peace in this institution is a partial vision that obscures the important but seemingly peripheral others of its self-conception Through in-depth ethnographic analysis this book explores the processes through which global spiritual movements can have peace front and center in their vision and yet condone and perpetuate cycles of injustice and social inequality that form the critical and problematic foundations of our global economy The book privileges the experiences and hardships faced by Indian waged workers most of them women but it also offers a sympathetic portrayal of international yoga practitioners and of the complex patterns of work and worship central to a global mission For more information check out A conversation with Laura E Klepinger author of *Transnational Yoga at Work* Spiritual Tourism and Its Blind Spots [Selected References on Environmental Quality as it Relates to Health](#) ,1972 *Energy Research Abstracts* ,1982 *Working Mother* ,2002-10 The magazine that helps career moms balance their personal and professional lives
