Timed Writing Prompts Middle School:

Time to Write, Second Edition John Sylvester Lofty, 2015-02-10 To read John's work is to take on the role of a patient listener. A book like a piece of music is scored for time and I feel *Time to Write* is scored adagio. I believe that *Time to Write* can be read as a critique of the time-chopping approach to education and an argument for presence for being fully open to experience for being there. To do good work we must enter something like island time or what John calls existential time or what is sometimes called flow when we lose at least temporarily a sense of clock time from the Foreword by Thomas Newkirk. Twenty-five years ago John Sylvester Lofty studied the influence of cultural time values on students' resistance to writing instruction in an isolated Maine fishing community. For the new edition of *Time to Write* Lofty returned to the island to consider how social and educational developments in the intervening years may have affected both local culture and attitudes toward education. Lofty discovered how the island time values that previously informed students' literacy learning have been transformed by outside influences including technology, social media, and the influx of new residents from urban areas. Building on the ethnographic findings of the original study, the new edition analyzes the current conflict between the digital age time values of constant connections and instant communication and those of school-based literacy. Lofty examines the new literacies now essential for students in a technologically connected world: both those who aspire to continue the traditional island work of lobster fishing and for the many who now choose to pursue other careers and attend college on the mainland.
