

# The Tiny Seed Lesson Plan Guide

By: Eric Code

## Key Vocabulary:

soil  
dreams

germinate  
hatchling

drifts  
desert

## Before Reading Activity:

Review the title of the book with students.  
Write the title on the board or chart paper.  
Have students make predictions about what will happen in the story.  
Record student responses.  
Introduce vocabulary words and definitions.  
Set a purpose for reading: author's purpose. Why do you think the author wrote this book?

## During Reading Activity:

While reading the book, stop and have students make notes and define new vocabulary.  
You may choose to record new predictions.

## After Reading Activity:

Have students retell the main events of the story.  
Have students tell about their favorite part of the story.  
Have students complete the Life Cycle of a Plant Handout.

## Closure:

Review the Tiny Seed Activity Menu and have students choose what activities they would like to complete. You can set an amount of activities to complete or let them choose on their own.

## Documents included in this unit:

The Tiny Seed Vocabulary Cards  
The Tiny Seed Plant Life Cycle Handout  
The Tiny Seed Activity Menu

# Tiny Seed Numeracy Lesson Plans

## **Tiny Seed Numeracy Lesson Plans:**

*Using Children's Literature in Math and Science*, 1997      *Developing Teaching Skills in the Primary School* Jane Johnston, John Halocha, Mark Chater, 2007-10-16 Teaching is a complex process which involves the development and utilization of subject knowledge and teaching skills. Containing reflective and practical skills, this book supports such development focusing specifically on teaching skills, considering what they are, how they develop, and how they differ between age and subject. The book contains three sections: Planning, Doing, and Reviewing, which demonstrate effective classroom practice. It uses examples of practitioners at different stages of their professional development to link theory and practice and includes discussions on contemporary issues in primary education such as Constructivist teaching and learning, Thinking skills, Creativity, Teaching and learning styles, Child-centred learning. The authors provide a critical analysis of the issues, practice, and problems faced by primary school teachers, which is supported by reflective tasks throughout the book. Emphasizing the child as a partner in the learning process and highlighting the importance of teaching for child-centred learning, the book ultimately develops and strengthens the teacher's skills. *Developing Teaching Skills in the Primary School* provides essential guidance and support to trainee, beginner, and developing primary school teachers.

*Prisoners of Hope: 111 Inspiring Stories* Jerald Borgie, 2016-10-18 In response to our quest for something to believe in, *Prisoners of Hope: 111 Inspiring Stories* provides a series of inspirational short stories based on specific Bible passages and parables. With humor and heartfelt wisdom, readers will learn how ordinary people have found hope in how the words of the Bible have been reflected in their everyday lives. From a baby girl who was abandoned by her mother at a Holiday Inn only to be adopted by a loving family to the solace that a wealthy man found in the words "In God We Trust" on a found penny, the stories show us that no matter what the circumstances, the answers are always found in the words of the Lord.

*Story Starters and Science Notebooking* Sandy Buczynski, Kristin Fontichiaro, 2009-05-19 *Story Starters and Science Notebooking: Developing Student Thinking Through Literacy and Inquiry* is designed to provide a meaningful, comfortable framework in which teachers and parents can encourage elementary children to explore scientific ideas in an inquiry-oriented format. The basis for each scientific concept presented in *Story Starters and Science Notebooking* is embedded in a story appropriate for elementary-aged children. The activity that follows each narrative encourages learners to observe, compare, gather data, organize, or classify and draw conclusions about the problem posed from the story. Because current scientific knowledge and understanding guide scientific investigations, background information in each chapter provides teachers with a synopsis of the scientific concept involved in the activity for that story. The story starters present a framework for inquiry which eliminates the free-wheeling, uncontrolled, and unstructured view some teachers have of inquiry. These are either original stories or familiar children's stories that ask learners to investigate a possible scientific explanation for a problem or scenario. Learners then communicate their findings in an oral, written, pictorial, or technological form back to a lead character from the

story Extension activities provide an opportunity for learners to compare their answers with what scientists already know about the world and also motivate them to frame new questions Grades 3 6 **Collaborative Math Books for Your Class to Make and Share!** Mary Beth Spann,1999-04 Build early reading writing and math skills with these irresistible class made books Includes easy how to s and patterns for twelve rhyming books on the math topics you teach Apple Counting Shape Cat Ladybug Subtraction Pizza Fraction 100th Day of School and more A truly innovative resource For use with Grades K 2

Teaching Science with Favorite Picture Books Ann Flagg, Teri Ory, Mary Ory, 2002-02 Explains how to use fifteen science based picture books to teach students in grades one through three the basic fundamentals of science includes reproducibles and easy activities **The Little Book of Maths Outdoors** Terry Gould, 2015-06-04 This is a unique book that supports the current thinking behind outdoor learning It features over 40 ideas for outdoor activities that support mathematics in the early years and the specific areas of learning in the revised EYFS All the ideas are tried and tested by Terry and this book will prove to be popular in the early years and well into Key stage 1 **A Mathematical Prelude to the Philosophy of**

**Mathematics** Stephen Pollard, 2014-05-12 This book is based on two premises one cannot understand philosophy of mathematics without understanding mathematics and one cannot understand mathematics without doing mathematics It draws readers into philosophy of mathematics by having them do mathematics It offers 298 exercises covering philosophically important material presented in a philosophically informed way The exercises give readers opportunities to recreate some mathematics that will illuminate important readings in philosophy of mathematics Topics include primitive recursive arithmetic Peano arithmetic G del s theorems interpretability the hierarchy of sets Frege arithmetic and intuitionist sentential logic The book is intended for readers who understand basic properties of the natural and real numbers and have some background in formal logic **Developing Early Maths Skills Outdoors** Marianne Sargent, 2020-01-09 Developing

Early Maths Skills Outdoors provides practitioners with practical planning for how to develop and enhance the outdoor area to facilitate mathematical learning It includes up to 80 activities to embed each learning experience into daily provision with dedicated plans to develop specific skills and aspects of mathematics The activities throughout the book are low cost and easy to set up aiming to reassure practitioners and give them the confidence to plan more mathematical learning experiences outdoors This is further supported with planning guidance and resource ideas as well as advice on observation and assessment including suggestions for how to reduce the paperwork burden and a useful observation template The book is divided into sections that represent the different aspects of mathematics and includes An introduction to each aspect explaining why it is important and outlining the fundamental skills and concepts that underpin it ideas for adult led and adult initiated activities that aim to develop children s early mathematical knowledge skills and understanding suggestions for how to enhance continuous outdoor provision so that it promotes independent investigation fostering creative and critical thinking pointers and tips about teaching mathematics in the early years ideas for how to involve parents and carers and
