National Healing, Integration and Reconciliation in Zimbabwe Ezra

Chitando, 2019-12-06 This book brings together scholars from diverse backgrounds to provide interdisciplinary perspectives on national healing, integration, and reconciliation in Zimbabwe. Taking into account the complex nature of healing across moral, political, economic, cultural, psychological, and spiritual dimensions of communities and the nation, the chapters discuss approaches, disparities, tensions, and solutions to healing and reconciliation within a multidisciplinary framework. Arguing that Zimbabwe's development agenda is severely compromised by the dominance of violence and militancy, the contributors analyse the challenges, possibilities, and opportunities for national healing. This book will be of interest to scholars of African studies, conflict and reconciliation, and development studies.

Regime and Education in Zimbabwe Bekithemba Dube, Albert Mufanechiya, 2024-06-10 This collection focuses on the post-independence educational development in Zimbabwe. It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers, poor salaries, student activism, minority languages, and curriculum innovations. This volume argues that the regime has used education as a tool for repression. Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda. Consequently, this has resulted in a nation in crisis, marked with high turnover, poor economy, and mass exodus of teachers and learners. The contributors to this volume make various suggestions which could recenter education towards addressing the experiences of the learners, as opposed to being used as a tool to push repression and thwart democracy.

Indigenous Teaching Disciplines and Perspectives for Higher Education Kgari-Masondo, Maserole Christina,2025-03-28 Literature indicates that sociolinguists and educationists often claim multilingual practice and Africanizing and Indigenizing education will jeopardize national unity and social cohesion Such claims delay the

implementation of decolonization policies and the transformation of the curriculum under false assumptions. However, research reveals many Indigenous students struggle with higher educational content which is often presented through languages that are unfamiliar to them. This implies that there is a need to uncover resources that can assist in necessitating the implementation of Indigenous education globally and that all multilingual strategies in education must be based on quality mother tongue illustrative content as its foundation. As a result, further research on the subject is necessary to enhance teaching strategies that reach all Indigenous students. *Indigenous Teaching Disciplines and Perspectives for Higher Education* illustrates the need for the implementation of a decolonized teaching and learning curriculum with integrated resources as models. It explores how to improve Indigenous knowledge content and teaching methods. Covering topics such as cultural identity, African research methodology, and Indigenous media, this book is an excellent resource for teachers, policymakers, school administrators, researchers, scholars, academicians, and more. *Why History Education?* Joanna Wojdon, 2023-03-15. The 2022 issue of JHEC is focused on the topic *Why History Education*, addressing the sense of history education in the contemporary world where it has to assert itself in the field of tension of power, economy, and society and to engage in the dialogue with the growing field of public history. Perspectives from Austria, Germany, Israel, Poland, South Africa, Ukraine, and Zimbabwe are included. The highlight of the Varia section is the article on *Plannungsmatrix* where Alois Ecker presents his innovative tool for designing teaching modules that skillfully combine first and second order historical concepts in the course of dialogical interaction between educator and students.
