Democracy, Elections, and Constitutionalism in Africa Charles M. Fombad,Nico Steytler,2021-03-18 The third wave of democracy that reached African shores at the end of the Cold War brought with it a dramatic decline from 1990 onwards in dictatorships military regimes one party governments and presidents for life Multiparty democracy was at the core of the constitutional revolutions that swept through most of Africa in those watershed years However that wave is either losing momentum or receding or being reversed in its entirety This volume examines democracy and elections in Africa a focus motivated by two concerns First after 30 years it is important to take stock of the state of constitutional democracy on the continent The democratic gains of the 1990s and 2000s seem to be falling by the wayside with the evidence mounting that regimes are concealing authoritarianism under the veneer of elections doing so in an international context where populist regimes are on the rise and free and fair multiparty elections are consequently no longer a given It is becoming a battle to protect and retain constitutional democracy The second reason for this volume s focus on democracy and elections is that multiparty democracy is essential for the proper functioning of the state in addressing the major problems facing Africa internal conflict inequality and lack of development and poor governance and corruption The focus of this volume is thus on how competitive politics or multiparty democracy can be realized and how through competition such politics could lead to better policy and practice outcomes **Trade Policy Review** ,2020 **Financial Inclusion and Digital Transformation Regulatory Practices in Selected SADC Countries** Howard Chitimira,Tapiwa Victor Warikandwa,2023-03-28 This book investigates the regulation and promotion of financial inclusion and provides a comparative analysis of the regulation promotion and enforcement of the relevant laws in the SADC in particular South Africa Namibia Botswana and Zimbabwe as well as the challenges of financial inclusion In turn it evaluates financial inclusion in the context of specific challenges faced by unbanked and underbanked customers who are easy targets for cyber criminals because they tend to have lower levels of digital literacy The book presents novel discussions that identify the challenges and flaws associated with the enforcement of financial inclusion laws and related measures intended to promote financial inclusion in the SADC region This is primarily done in order to reveal the current strengths and weaknesses of financial inclusion laws in relation to certain aspects of the companies securities and financial markets in the region For example there is no common financial inclusion instrument law

that is effectively and uniformly applied throughout the SADC This has impeded the enforcement authorities efforts to effectively combat financial exclusion across the region The book is likely the most comprehensive study to date on the regulation and promotion of financial inclusion in the SADC region and fills a major gap in SADC and African legal jurisprudence As such it offers a valuable asset for policymakers attorneys bankers securities share holders and other market participants who deal with financial inclusion as well as undergraduate and graduate students interested in the topic
