**Handbook Of Disaster Risk Reduction & Management: Climate Change And Natural Disasters** Christian N Madu, 2017-07-25 Climate change is increasingly of great concern to the world community The earth has witnessed the buildup of greenhouse gases GHG in the atmosphere changes in biodiversity and more occurrences of natural disasters Recently scientists have begun to shift their emphasis away from curbing carbon dioxide emission to adapting to carbon dioxide emission The increase in natural disasters around the world is unprecedented in earth s history and these disasters are often associated to climate changes Many nations along the coastal lines are threatened by massive floods and tsunamis Earthquakes are increasing in intensity and erosion and droughts are problems in many parts of the developing countries This book is therefore to investigate ways to prepare and effectively manage these disasters and possibly reduce their impacts The focus is on mitigation strategies and policies that will help to reduce the impacts of natural disasters The book takes an in depth look at climate change and its association to socio economic development and cultures especially in vulnerable communities and investigates how communities can develop resilience to disasters A balanced and a multiple perspective approach to manage the risks associated with natural disasters is offered by engaging authors from the entire globe to proffer solutions

**Reimagining God and Resacralisation** Alexa Blonner,2019-05-14 This book shows that widespread resacralisation has been taking place which is producing new ways of perceiving God and the divine The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism but this process of secularisation has yet to occur as predicted The book begins by contrasting theories of secularisation and resacralisation Throughout the book conceptual threads or new religious themes related to this resacralisation are discussed in terms of three main categories reimagining God s nature substance and location reimagining human value and purpose and reimagining modes of redemption Finally the book considers how these threads are moving in various different directions and what the religious future might hold This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies new religious movements and the sociology of religion

**Inequality around the World** Deric Shannon,2025-02-06 A two volume set intended for readers interested in understanding the political and cultural underpinnings of socioeconomic inequality across the globe Inequality around the World examines key drivers and shapers of inequality at the local national and international level The two volume set includes 33 in depth chapters covering such issues as public and private healthcare environmental protection and pollution housing disability women s rights land policies antisemitism sexual orientation and gender diversity race and racism political representation and access to higher education Each chapter compares and contrasts conditions in major countries including the USA Russia India China and Germany as well as in wider regions like the Middle East West Africa Central America and Eastern Europe Scrupulously researched and wide ranging in coverage Inequality around the World provides an in depth survey of socioeconomic inequality in the 21st century in all its many forms

**African Handbook of Climate Change Adaptation** Nicholas Oguge,Desalegn Ayal,Lydia Adeleke,Izael da Silva,2021-05-20 This open access book discusses current thinking and presents the main issues and challenges associated with climate change in Africa It introduces evidences from studies and projects which show how climate change adaptation is being and may continue to be successfully implemented in African countries Thanks to its scope and wide range of themes surrounding climate change the ambition is that this book will be a lead publication on the topic which may be regularly updated and hence capture further works Climate change is a major global challenge However some geographical regions are more severely affected than others One of these regions is the African continent Due to a combination of unfavourable socio economic and meteorological conditions African countries are particularly vulnerable to climate change and its impacts The recently released IPCC special report Global Warming of 1.5o C outlines the fact that keeping global warming by the level of 1.5o C is possible but also suggested that an increase by 2o C could lead to crises with crops agriculture fed by rain could drop by 50% in some African countries by 2020 and livestock production could damage water supplies and pose an additonal threat to coastal areas The 5th Assessment Report produced

by IPCC predicts that wheat may disappear from Africa by 2080 and that maize a staple will fall significantly in southern Africa. Also arid and semi arid lands are likely to increase by up to 8% with severe ramifications for livelihoods poverty eradication and meeting the SDGs. Pursuing appropriate adaptation strategies is thus vital in order to address the current and future challenges posed by a changing climate. It is against this background that the African Handbook of Climate Change Adaptation is being published. It contains papers prepared by scholars representatives from social movements practitioners and members of governmental agencies undertaking research and or executing climate change projects in Africa and working with communities across the African continent. Encompassing over 100 contributions from across Africa it is the most comprehensive publication on climate change adaptation in Africa ever produced. *Population Growth and Rapid Urbanization in the Developing World* Benna, Umar G., Garba, Shaibu Bala, 2016-06-07. This book studies the relationship between China and Africa by reviewing this history and current state of interactions offering a valuable addition to the often heated and contentious debate surrounding China's engagement in Africa from a Chinese angle. Comprising four parts the book covers a kaleidoscopic range of topics on China Africa relations based on materials from different languages. Part I looks into early historical contact between China and Africa and the historiography of African Studies in China in recent decades. Part II probes the origins dynamics challenges and cultural heritage of China's policies towards Africa. Part III explores the issue of development cooperation from both a theoretical and a practical point of view with a focus on the case of Chinese medical teams in Africa and China's technology transfer to the continent. Part IV illustrates bilateral migration discussing the history and life of Chinese immigrants in Africa and the African diaspora in China. The insights in this book as well as real life case studies will make this work an indispensable reference for academics students policy makers and general readers who are interested in international issues and area studies especially China Africa relations China's rise and African development. *Urban Food Systems Governance and Poverty in African Cities* Jane Battersby, Vanessa Watson, 2018-08-22. As Africa urbanises and the focus of poverty shifts to urban centres there is an imperative to address poverty in African cities. This is particularly the case in smaller cities which

are often the most rapidly urbanising but the least able to cope with this growth This book argues that an examination of the food system and food security provides a valuable lens to interrogate urban poverty Chapters examine the linkages between poverty urban food systems and local governance with a focus on case studies from three smaller or secondary cities in Africa Kisumu Kenya Kitwe Zambia and Epworth Zimbabwe The book makes a wider contribution to debates on urban studies and urban governance in Africa through analysis of the causes and consequences of the paucity of urban scale data for decision makers and by presenting potential methodological innovations to address this paucity As the global development agenda is increasingly focusing on urban issues most notably the urban goal of the new Sustainable Development Goals and the New Urban Agenda the work is timely The Open Access version of this book available at <http://www.tandfebooks.com/doi/view/10.4324/9781315191195> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**Urban Recycling Cooperatives** Jutta Gutberlet, 2016-05-12 Solid waste is a major urban challenge worldwide and decisions over which technologies or methods to apply can have beneficial or detrimental long term consequences Inappropriate management of solid waste can lead to damaging environmental impacts particularly in the megacities of the Global South Urban Recycling Cooperatives explores the multiple narratives and interdisciplinary nature of waste studies drawing attention to the pressing social economic and environmental challenges related to waste management The book asks questions such as how do we define waste and our relation to it who is involved in dealing with waste and what power interactions become manifest over issues of accessing and managing waste In recent years informal cooperatives have emerged devoted to recycling household and business waste before reclassifying it and redirecting it to the authorities Hence these workers are able to reclaim significant amounts of natural resources and thus contribute to the saving of resources and lessened waste management expenditures With particular reference to the Brazilian megalopolis of S o Paulo this book describes this paradigm shift in the general understanding of waste as unwanted discard towards the recognition of waste as a resource that must be recovered for reuse or recycling It would be of interest to students and policy makers working in international development and waste management The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**Indigenous knowledge systems and climate change management in Africa** Ajayi, O.C. (ed), Mafongoya, P.L. (ed), 2017-11-15 Climate change presents a profound challenge to food security and sustainable development in Africa Its negative impacts are likely to be greatest in the African region which is already food insecure In the face of global climate change and its emerging challenges and unknowns it is essential that decision makers base policies on the best available knowledge In recent years the knowledge of local and indigenous people often referred to as indigenous knowledge IK has been increasingly recognised as an important source of climate knowledge and adaptation strategies

**Urban Water Reuse Handbook** Saeid Eslamian, 2016-01-05 Examining the current literature research and relevant case studies presented

by a team of international experts the Urban Water Reuse Handbook discusses the pros and cons of water reuse and explores new and alternative methods for obtaining a sustainable water supply The book defines water reuse guidelines describes the historical and current **Agricultural Reform in Rwanda** Chris Huggins, 2017-10-15 International observers have lauded Rwanda as an example of an African country taking control of its own development trajectory and as a market friendly destination for investment A key component of this narrative has been an ambitious programme of agricultural reform involving private firms NGOs and international charities The Rwandan government claims these reforms have been a resounding success tripling crop yields and helping to combat hunger Chris Huggins argues however that Rwanda's liberal modernising image sits poorly with the regime's continuing authoritarian tendencies Featuring in depth case studies of the effects of agricultural reform in three different regions and drawing on hundreds of interviews Huggins shows that the much vaunted liberalization of agriculture has in fact depended on the coercion of Rwandan farmers and in many cases has had a detrimental impact on their livelihoods With the Kagame regime now coming under increasing international scrutiny this work provides a timely look at the impact of market friendly authoritarianism in contemporary Africa making essential reading for students and scholars of development in the fields of sociology anthropology political science and economics
