Zygmunt Bauman Liquid Fears:

Liquid Fear Zygmunt Bauman, 2013-05-08 Modernity was supposed to be the period in human history when the fears that pervaded social life in the past could be left behind and human beings could at last take control of their lives and tame the uncontrolled forces of the social and natural worlds. And yet at the dawn of the twenty-first century we live again in a time of fear. Whether it's the fear of natural disasters, the fear of environmental catastrophes or the fear of indiscriminate terrorist attacks, we live today in a state of constant anxiety about the dangers that could strike unannounced and at any moment. Fear is the name we give to our uncertainty in the face of the dangers that characterize our liquid modern age, to our ignorance of what the threat is and our incapacity to determine what can and cannot be done to counter it. This new book by Zygmunt Bauman, one of the foremost social thinkers of our time, is an inventory of liquid modern fears. It is also an attempt to uncover their common sources, to analyse the obstacles that pile up on the road to their discovery and to examine the ways of putting them out of action or rendering them harmless. Through his brilliant account of the fears and anxieties that weigh on us today, Bauman alerts us to the scale of the task which we shall have to confront through most of the current century if we wish our fellow humans to emerge at its end feeling more secure and self-confident than we feel at its beginning. *Liquid Times*

Zygmunt Bauman, 2013-04-17 The passage from solid to liquid modernity has created a new and unprecedented setting for individual life pursuits confronting individuals with a series of challenges never before encountered. Social forms and institutions no longer have enough time to solidify and cannot serve as frames of reference for human actions and long-term life plans, so individuals have to find other ways to organise their lives. They have to splice together an unending series of short-term projects and episodes that don't add up to the kind of sequence to which concepts like career and progress could meaningfully be applied. Such fragmented lives require individuals to be flexible and adaptable, to be constantly ready and willing to change tactics at short notice, to abandon commitments and loyalties without regret and to pursue opportunities according to their current availability. In liquid modernity the individual must act, plan, actions and calculate the likely gains and losses of acting or failing to act under conditions of endemic uncertainty. Zygmunt Bauman's brilliant writings on liquid modernity have altered the way we think about the contemporary world. In this short book he explores the sources of the endemic uncertainty which shapes our lives today and, in so doing, he provides the reader with a brief and accessible introduction to his highly original account developed at greater length in his previous books of life in our liquid modern times.

Care of the World Elena Pulcini, 2012-08-20 This book proposes a philosophy of care in a global age It discusses the distinguishing and opposing pathologies produced by globalization unlimited individualism or self obsession manifested as Promethean omnipotence and narcissistic indifference and endogamous communitarianism or an us obsession that results in conflict and violence The polarization between a lack and an excess of pathos is reflected in the distorted forms taken on by fear The book advocates a metamorphosis of fear which may restore in the subject an awareness of vulnerability and become the precondition for moral action Such awareness and the recognition of the condition of contamination caused by the other's unavoidable presence teach us to fear for rather than be afraid of Fear for the world means care of the world and care
