Zimsec O Level Geography Paper :

Education and Development in Zimbabwe Edward Shizha, Michael T. Kariwo, 2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe. It challenges scholars to think about the role of education, its funding, and the egalitarian approach to widening access to education. The nexus between education, democracy, and policy change is a complex one. The book provides an illuminating account of the constantly evolving notions of national identity, language, and citizenship from the Zimbabwean experience. The book discusses educational successes and challenges by examining the ideological effects of social, political, and economic considerations on Zimbabwe's colonial and postcolonial education. Currently, literature on current educational challenges in Zimbabwe is lacking, and there is very little published material on these ideological effects on educational development in Zimbabwe. This book is likely to be one of the first on the impact of social, political, and economic meltdown on education. The book is targeted at local and international academics and scholars of history of education and comparative education, scholars of international education and development, undergraduate and graduate students, and professors who are interested in educational development in Africa, particularly Zimbabwe. Notwithstanding, the book is a valuable resource to policy makers, educational administrators, and researchers, and the wider community. Shizha and Kariwo's book is an important and illuminating addition on the effects of social, political, and economic trajectories on education and development in Zimbabwe. It critically analyses the crucial specifics of the Zimbabwean situation by providing an in-depth discourse on education at this historical juncture. The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries. Rosemary Gordon, Senior Lecturer in Educational Foundations, University of Zimbabwe. Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis, covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching, this text provides a comprehensive, wide-ranging and yet carefully detailed account of education in Zimbabwe. This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe's education specifically but more widely to all who are interested in how the sociopolitical shapes education, how ideology, policy, international pressures, economic factors, and shifts in values collectively forge the historical and contemporary character of a country's education. Handel Kashope Wright, Professor of Education, University of British Columbia.

Introduction to Zimbabwe Gilad James, PhD, Zimbabwe is a landlocked country in southern Africa, bordered by South Africa to the south, Botswana to the west, Zambia to the north, and Mozambique to the east. The country has a population of approximately 14.4 million people, with the majority living in rural areas. Zimbabwe gained its independence from British colonial rule in 1980 and has been governed by the Zimbabwe African National Union Patriotic Front (ZANU PF) since then.

Zimbabwe's economy has faced many challenges in recent years including hyperinflation a shortage of foreign currency and political instability Agriculture is the largest sector of the economy with the majority of the population engaged in subsistence farming The country is also rich in minerals such as gold platinum and diamonds Despite its economic struggles Zimbabwe remains a popular tourist destination known for its wildlife natural beauty and historical landmarks such as Great Zimbabwe a 15th century stone city that is now a UNESCO World Heritage site *Zimbabwe Books in Print* ,1993

Geographical Education in a Changing World John Lidstone, Michael Williams, 2006-07-19 This book results from the work of the Commission on Geographical Education of the International Geographical Union Part 1 focuses on the distinctive traditions of school geography Part 2 reviews the state of school geography on a broad continental basis including national case studies by local experts The final chapters extrapolate from the present and point to likely future developments in the subject again with examples drawn from various countries *Geographical Education Magazine* ,1996 **The Rough**

Guide to Zimbabwe Barbara McCrea, Tony Pinchuck, 2000 This revised guide to Zimbabwe covers the game reserves national parks and wilderness areas There is coverage of the rock art literature history and music and a colour wildlife supplement In Botswana only the Okavanga Delta and Chobe National Park are covered *Teacher in Zimbabwe* ,2014
