Zombie Stories for People with Short Attention Spans Shaun Phelps, Shaun Phelps MS, Kyle Clements, Dominique Divine, Tonia Brown, Rob Sacchetto, 2015-01-26 A collection of short disgusting and mentally disturbed zombie stories for the internet age Concise bittersweet and stomach churning This collection of disgusting horrifying and psychological thriller based zombie stories is the result of a challenge One night Kyle Clements and I decided we should write a novella We came up with the idea of writing stories based on a weekly challenge Each week we would send each other a single word for better or worse Regardless the word we had to write at least 1 000 words about the topic The stories that came out of the challenge are the most terrifying depraved sincere and utterly unreadable works we could have hoped for The idea was further based on Edgar Allen Poe s recommendation that a short story should be read within a single sitting Given society s recent changes in attention span we realized 1 000 words in a single sitting would be the best most people could accomplish When I introduced the idea to my mother she was excited until she read the first story Then she said I liked your last work better When I sent the novella to our beta readers their responses were typically a mix between This is really great and I couldn t finish this story it was just too disgusting In the end I think we adequately accomplished our goal A challenging read that is both interesting and disgusting at once It is our hope that you will both enjoy this book and also hate it yet not demand a refund

Teaching Children to Love Nature Dueep Jyot Singh,John Davidson,2018-03-31 Table of Contents Introduction A Healthy Outdoors Diet Planning Your Nature Diet Bird baths and bird houses Coconut Birdhouse A Little Bit of Dirt Kids and Water Conclusion Author Bio Publisher Introduction It is surprising that it had to take scientific researchers to tell a large number of parents out there that it is necessary for them to make sure that their children had a regular dose of sun fresh air water and oxygen in order to keep healthy When I saw this research which was very well publicized I blinked Were there people really in the world who needed scientific research to prove something which was self evident before they would take their families into the lap of nature It is then that I began to analyze the social lifestyles and trends being set for the younger generation with the elder generation as an example The elder generation the parents had begun living a hectic lifestyle where survival of the fittest especially on the financial front was paramount Thus bothering about rest and recuperation in the lap of nature began to take a backseat way back in the 90s This lapse also caused ever growing statistics in tension stress depression obesity a low immunity system vulnerability to a number of diseases Also children began growing up with underdeveloped cognitive abilities and also physicals resilience because they had not learned about the beneficial qualities of Power N to help keep you healthy naturally and give you long term health benefits at the same time Also the parents are not to blame When a child was young if he had not been taught by his own parents to walk run jog explore go adventuring in the lap of nature you would not

expect him to grow up deciding that he had better become a nature loving Wild Kid all of a sudden I have seen a large number of my city bred friends who would shudder at the idea of tiring themselves on nature hikes or go adventuring in woods you know all those insects and snakes and bugs and sabertooth tigers out there shudder shiver Scouting , Published by the Boy Scouts of America for all BSA registered adult volunteers and professionals Scouting magazine offers editorial content that is a mixture of information instruction and inspiration designed to strengthen readers abilities to better perform their leadership roles in Scouting and also to assist them as parents in strengthening families **Reagan's Game** R.
