Richard W. Garrett,2017-12-06 There is a national crisis in education and it s not the highly debated philosophical discussions or heated political arguments we are used to hearing Survey data establishes the fact that classrooms throughout the nation suffer from the presence of a small percentage of misbehaving students Teachers are ill equipped to deal with these disruptive students resulting in lost

classroom time and demoralized educators who are perpetually blamed for the student's bad performance. The root cause of these misbehaving children is not a lack of intellectual ability but a lack of character and grit, the important noncognitive skills required for success in life. *The Kids are Smart Enough* is a book of hope with surprisingly practical solutions revealed by listening to teachers learning from data and looking for the root cause. This book will help you to discover how struggling students can be reached and teachers encouraged.

Essentials of Entrepreneurship Robert A. Baron, 2014-03-28. Entrepreneurs are, in essence, individuals who take action to convert their ideas into reality. Doing so involves completing many steps. Robert Baron describes these steps and provides guidance for performing them successfully. To do so, it incorporates

StartUP SOAR Coaching Ray Garcia, 2015-05-01. Start up now, get inspired to create a high impact international business, make a difference by putting ideas into action and produce a return on investment with your talents. Entrepreneurs gain satisfaction by using their talents to produce new wealth for both society and themselves. In a modern world, employment choices typically fit established institutional norms. A good job in a government bureaucracy or a large corporation with its abundance of restrictive policies may not provide much work satisfaction despite the employment benefits and stability. If you have ever thought, dreamed, imagined, or fantasized about starting a business or being part of a company doing creative work with a purpose, then you have started to connect with your entrepreneurial spirit. This book is for anyone who wants to better understand the entrepreneurial approach. It originated from the first entrepreneurship course I taught at the University of Pisa from 2011 through 2014 and is based on over 15 years of experience as an entrepreneur of venture-backed technology companies. The course was designed for PhD researchers and MBA students looking to expand their work opportunities beyond their traditional prescribed paths into institutions and corporations. This material is not only for academic researchers; it assumes that entrepreneurship is latent in all people. Traditionally, we are taught not to aim for self-employment through entrepreneurship during the years of primary education. Anyone with an advanced education, self-motivation, ambition, a vision for how to improve the world, a good attitude, and a willingness to take on the challenge of actively exploring entrepreneurial pursuits should be able to follow the material and put it to use in their own efforts. If you currently own or are working in a company and want to innovate and expand the business, this book might be of value in inspiring you to grow a high impact international business by leveraging the business you are already doing. Read it to prepare for the journey and put the concepts into action. Do not be a passive reader. Start up now, get inspired to create a high impact international business, make a difference by putting ideas into action and produce a return on investment using your talents.

Enlightening Findings of an Entrepreneur Mother : Unschooling Shraddha Pingale, 2023-08-29. About the Book *Enlightening Findings of an*

Entrepreneur Mother Unschooling is a groundbreaking book written by an author who shares her experience of unschooling her children. The author, an entrepreneur mother, has successfully embraced unschooling as a way of life and believes that it is the most effective way of educating children. Through her insightful and thought-provoking book, the author shares her journey, struggles, and triumphs in educating her children outside of the traditional school system. This book is an invaluable resource for parents who are looking for alternative educational options for their children and are interested in exploring the unschooling philosophy. It is a must-read for anyone who is curious about how unschooling can transform the way we educate our children. This book is a must-read for parents who are searching for the true meaning of education. The author dives deep into what it means to educate oneself and challenges the current system of rote learning. She questions whether this system is meeting the requirements of life or if it is simply teaching our children how to pursue a career and earn a basic living. Through her personal experiences with unschooling, the author sheds light on how we can provide our children with a more fulfilling and enriching education that goes beyond academic grades and focuses on self-discovery, creativity, and self-directed learning to explore possibilities for life and not just career-centric education. This book is an invitation for parents to rethink their approach to education and explore alternative options that can truly prepare their children for a successful and meaningful life.

About the Author: Shraddha Pingale, Jt Managing Director of Econstruct Design and Build Pvt Ltd and an M Tech graduate, is a recognized figure in business management and education. A dynamic leader, she is the driving force behind her company, persisting even in challenging situations. Involvement in recruitment processes across India gave Shraddha unique insights into the education system. She realized that true education encompasses more than career building; it should provide a life purpose and a balanced mix of life skills, soft skills, and hard skills. This revelation led her to unschool her son and establish The Life Engineering Foundation with her husband, Sandeep. The Life Engineering Foundation serves as a support system for parents who value open learning but struggle with time constraints. By providing resources, guidance, and support, the foundation aids parents in customizing their child's educational journey. The foundation's mission is to encourage children to be self-motivated, self-directed, and self-governed, enabling them to choose their own learning path. The vision of The Life Engineering Foundation is to provide a perfect blend of life skills, soft skills, and hard skills to children, promoting health, happiness, determination, personal development, and spiritual growth.

The Routledge Handbook of Disability in Southern Africa Tsitsi Chataika, 2018-07-27 This comprehensive groundbreaking southern African centred collection spans the breadth of disability research and practice. Reputable and emerging scholars together with disability advocates adopt a critical and interdisciplinary stance to prove challenge and shift commonly held social understanding of disability in traditional discourses. Frontiers and practices in prominent areas such as international development, disability studies, education, culture, health, religion, gender, sports, tourism, ICT, theatre, media, housing and legislation. This handbook provides a body of interdisciplinary analyses suitable for the development of disability studies in southern Africa. Through drawing upon and introducing resources from several disciplines, theoretical perspectives and personal narratives from disability activists, it reflects on disability and sustainable development in southern Africa. It also addresses a clear need to bring together interdisciplinary perspectives and narratives on disability and sustainable development in ways that do not undermine disability politics advanced by disabled people across the world. The handbook further acknowledges and builds upon the huge body of literature that understands the social, cultural, educational, psychological, economic, historical and political facets of the exclusion of disabled people. The handbook covers the following broad themes: Disability inclusion, ICT and sustainable development, Access to education from early childhood development up to higher education, Disability employment, entrepreneurship and community based rehabilitation, Religion, gender and parenthood, Tourism, sports and accessibility. Compelling narratives from disability activists on societal attitudes toward disability, media advocacy, accessible housing and social exclusion. Thus, this much awaited handbook provides students, academics, practitioners, development partners, policy makers and activists with an authoritative framework for critical thinking and debates that inform policy and practice in incomparable ways with the view to promoting inclusive and sustainable development.

Leadership Explained Nicholas Harkiolakis, 2016-11-03 Unfortunately, leadership does not have a one size fits all definition. We all have our own ideas as to what makes a good leader and the types of challenges that will be faced. The author bridges a gap by presenting how modern leadership happens while simultaneously combining a description of leadership and its practical application in today's environments. In this book, Nicholas Harkiolakis integrates the various theoretical perspectives into a unified model that can be understood by both the academic and the practitioner, existing and future leaders. This understanding is necessary to effectively treat and apply leadership to the challenging settings of today's operational environments, virtual, distributed, multicultural and so on. Some of the key topics covered are leadership through the ages, characteristics of leadership, modern perspectives, an integrated leadership framework, the application of leadership, the twenty first century leadership practices.
