Engineering KIIT Deemed to be University Bhubaneswar India during February 12-13, 2022. The book discusses recent developments and contemporary research in power electronics and energy. Proceedings of PIANC Smart Rivers 2022 Yun Li, Yaan Hu, Philippe Rigo, Francisco Esteban Lefler, Gensheng Zhao, 2023-02-25. This book is a compilation of selected papers from the 10th PIANC Smart Rivers Conference. Smart Rivers 2022. The work focuses on novel techniques for inland waterways and navigation structures. The contents make valuable contributions to academic researchers, engineers in the industry, and regulators of aviation authorities. As well, readers will encounter new ideas for realizing Green Waterways and Sustainable Navigations. This is an open access book. Essbase for Mere Mortals: An Insider's Guide, *Green and Smart Technologies for Smart Cities* Pradeep Tomar, Gurjit Kaur, 2019-12-06. The book starts with an overview of the role of cities in climate change and environmental pollution worldwide, followed by the concept description of smart cities and their expected features focusing on green technology innovation. This book explores the energy management strategies required to minimize the need for huge investments in high capacity transmission lines from distant power plants. A new range of renewable energy technologies modified for installation in cities like small wind turbines, micro CHP, and heat pumps are described. The overall objective of this book is to explore all the green and smart technologies for designing green smart cities. *Smart Agriculture for Developing Nations* Kandiah Pakeerathan, 2023-03-08. This book in its eighteen chapters provides sustainable and smart technology-based solutions to developing nations. Smart farming is growing in importance due to the increasing demand for higher crop yield, the need for using natural resources efficiently, the rising use and sophistication of information and communication technology, and the increasing need for climate smart agriculture. Some of these chapters deal with the applications of smart agriculture to address the special challenges of the Small Island Developing States for sustainable agriculture. The book brings together scientific communities from India, Indonesia, Iraq, Malaysia, Mauritius, Myanmar, Palestine, Sri Lanka, and South Africa to share their expertise to make the farming system more connected and intelligent. The smart farming techniques shared in different chapters not only help to reduce the overall cost and improve the quality and quantity of products but altogether help improve the sustainability of agriculture in the developing world. Smart Farming is a management concept focused on providing the agricultural industry with the infrastructure to leverage advanced technologies including artificial intelligence, AI, big data, robotics, drones, and Internet of Things (IoT) for tracking, monitoring, automating, and analyzing operations. Sometimes known as precision agriculture, smart farming is software managed and sensor monitored. **Smart Data and Computational Intelligence** Faddoul Khoukhi, Mohamed Bahaj, Mostafa Ezziyyani, 2019-02-28. This book gathers the proceedings of the International Conference on Advanced Information Technology Services and Systems (AIT2S 18) which was held in Mohammedia, Morocco, on October 17-18, 2018. Presenting the latest research in the fields of Modern Information Engineering Concepts and Communication Systems, the book will also be of interest to those working in emerging fields such as Advances in Networking and Sensor Networks, Advances in Software

and governance mechanisms of sustainable smart city transitions Drawing on empirical evidence stemming from existing smart city research the book begins by advancing a theory of sustainable smart city transitions which forms bridges between smart city development studies and some of the key assumptions underpinning transition management and system innovation research human geography spatial planning and critical urban scholarship This interdisciplinary theoretical formulation details how smart city transitions unfold and how they should be conceptualized and enacted in order to be assembled as sustainable developments The proposed theory of sustainable smart city transitions is then enriched by the findings of investigations into the planning and implementation of smart city transition strategies and projects Focusing on different empirical settings change dimensions and analytical elements the attention moves from the sociotechnical requirements of citywide transition pathways to the development of sector specific smart city projects and technological innovations in particular in the fields of urban mobility and urban governance This book represents a relevant reference work for academic and practitioner audiences policy makers and representative of smart city industries The chapters in this book were originally published as a special issue of the Journal of Urban Technology *Internet of Things, Smart Spaces, and Next Generation Networks and Systems* Olga Galinina, Sergey Balandin, Yevgeni Koucheryavy, 2016-09-19 This book constitutes the joint refereed proceedings of the 16th International Conference on Next Generation Wired Wireless Advanced Networks and Systems NEW2AN 2016 and the 9th Conference on Internet of Things and Smart Spaces ruSMART 2016 held in St Petersburg Russia in September 2016 The 69 revised full papers were carefully reviewed and selected from 204 submissions The 12 papers selected for ruSMART are organized in topical sections on new generation of smart services smart services serving telecommunication networks role of context for smart services and smart services in automotive industry The 57 papers from NEW2AN deal with the following topics cooperative communications wireless networks wireless sensor networks security issues IoT and industrial IoT NoC and positioning ITS network issues SDN satellite communications signals and circuits advanced materials and their properties and economics and business **The The macOS User**

Administration Guide Herta Nava, 2021-04-26 Explore macOS tools and architecture for executing support tasks and system administration and prepare for the Apple Certified Support Professional ACSP certification exam Key Features Delve into macOS Big Sur from installation to managing apps and optimizing your environment Become an Apple Certified Support Professional ACSP with this comprehensive macOS support guide The book is not intended to be a user guide it covers concepts pertinent for a user acting as an administrator Book Description Apple is pushing the capabilities of its technologies to help users achieve high performance including improvements in its OS running across all Mac systems macOS and new technologies such as M1 Silicon chips This book walks you through macOS from a system administration and support point of view exploring its latest features The book starts by explaining macOS architecture installation and startup processes to enable you to get started with the OS You ll learn how to manage users and discover techniques for user security and privacy

Moving on you'll get to grips with the macOS file system and learn to manage disks, volumes and partitions for effective file management. Most of the examples covered in this book are from an administrator's perspective; however, when relevant, a standard user's perspective is also presented. You'll find illustrations for Mac systems running macOS 11 Big Sur and, when necessary, for macOS 10.15 macOS Catalina. Finally, you'll explore advanced topics such as networking and using command-line tools for administration tasks. By the end of this macOS book, you'll be well-versed with macOS features, administration tasks, and best practices. You'll also be able to apply the concepts to increase your chances of success in obtaining Apple certifications such as Apple Certified Support Professional (ACSP). What you will learn: Understand the fundamentals of the macOS system and architecture; Configure key services and perform essential troubleshooting in your Mac system; Install, update, and configure your local macOS system and identify the stages of the startup process; Create and manage a local user account and set up your customized macOS environment; Manage your file systems, storage, and permissions; Explore practices and techniques to work with apps, networks, and security for your Mac system; Delve into administration tasks such as managing service resources and peripherals. Who this book is for: If you are a Mac system administrator, support and help desk technician, or engineer, or Mac power user looking to explore macOS architecture and tooling, then this book is for you. The book assumes beginner-level knowledge of the macOS environment and system administration.

Convergence of IoT, Blockchain, and Computational Intelligence in Smart Cities Rajendra Kumar, Vishal Jain, Leong Wai Yie, Sunantha Teyarachakul, 2023-12-12. This edited book presents an insight for modelling, procuring, and building the smart city plan using the Internet of Things (IoT) and a security framework using blockchain technology. The applications of Li-Fi and 5G in smart cities are included along with their implementation challenges and advantages. This book focuses on the use of IoT and blockchain in the day-to-day transparent and recorded activities of citizens of smart cities like smart citizen management. The future for upgrading the system as per technological advancements is also discussed. This book integrates IoT, blockchain, Li-Fi, and 5G in smart city implementation, covers smart supply chain management using IoT, outlines the state of the art, and sustainable implementation of smart cities. Practical challenges, sustainable development of smart cities, presents detailed explanation of case studies of smart cities of developed countries and developing countries, and their comparisons. This book is aimed at researchers and graduate students in Artificial Intelligence, Urban Planning, and Information Technology Systems and Management.

Smart Videoconferencing Janelle Barlow, Peta Peter, Lewis Barlow, 2002-09-09. In recent years, videoconferencing technology has improved significantly as equipment prices have dropped. Smart Videoconferencing demonstrates how to integrate this technology into business communications. The authors address the most basic concerns of users: how to handle the equipment, how to reduce distractions, how to avoid mistakes, and how to look and sound your best on camera and get the most out of virtual meetings.
